Parenting Outside the Gender Box Krysti Ryan, 2018 In this dissertation I explore the social forces that generate and restrict gender progress by examining the experiences of forty five parents who self identify as raising and supporting transgender and gender diverse youth Using data from semi structured in depth interviews I analyze the circumstances under which hegemonic gender schemas that sustain gender inequality are challenged and reinforced as parents work to make space for their children's gender diversity in a culture structured by the gender binary I consider how these parents develop alternate understandings of gender themselves how they navigate the gender binary on behalf of their children and how they respond to social resistance from family friends and institutions that subscribe to hegemonic gender ideology My analysis demonstrates that parents and mothers in particular are contributing in powerful ways to creating trans affirming gender inclusive change in their communities while also challenging harmful aspects of dominant gender ideology that sustain inequality between men and women These include challenging the congruence of sex and gender acting as moral authorities who validate and legitimize non hegemonic beliefs and encouraging the organization of children within educational and extracurricular settings along lines other than gender effectively reducing the salience of gender in those environments In reckoning with the gender binary on behalf of their children however mothers also reinforce core aspects of hegemonic gender ideology by exemplifying cultural expectations of intensive mothering and perpetuating essentialist ideology that attributes gender identity and expression to biological imperatives and equates womanhood with caretaking and nurturance This work contributes to a growing body of research on supportive families of transgender and gender diverse youth who have only recently come into public consciousness It expands on the existing literature in the field by focusing on the ways that the gendered organization of the family intersects with material pressures to affect parents efforts to adopt trans affirming beliefs and practices in response to their children's gender difference Additionally this research contributes to gender scholarship that identifies hard to detect and deeply embedded ideology and practices that sustain the gender hierarchy

Gender Neutral Parenting Paige Lucas-Stannard, 2012. Our culture has strict rules for acceptable behavior for men and women. But what about kids who fall outside the boundaries of prescribed roles? This book is a guide for parents in the practical application of Gender Neutral Parenting, a parenting style based on respect for a child's self identity and providing latitude in exploring their own version of gender and gender expressions. In Gender Neutral Parenting you'll learn the Five Skills Essential for GNP: Skill 1: Become Aware of Genderization; Skill 2: Become Aware of Your Gender Bias; Skill 3: Create a Gender Diverse Environment; Skill 4: Start a Dialog About Gender; Skill 5: Dealing With Family and Friends and Dispelling Myths. With practical examples and real world scenarios, this book will give you the strong foundation needed to implement GNP in your home and with your children. You'll learn about gender stereotypes for boys and girls and how to counteract them as a parent. Stereotypes covered include: Girl Genderization Stereotypes: Stereotype: Girls Are More Social and Less Physical; Stereotype: Girls Are Princesses; Stereotype: Girls Are Boy Crazy; Sexual Temptresses; Stereotype: Girls Are Pure and Virginal; Boy Genderization Stereotypes: Stereotype: Boys Are Physically Active But Behind Socially and Verbally; Stereotype: Boys Are Emotionally Stunted; Stereotype: Boys Are Slaves To Their Sex Drive; Stereotype: Boys Will Be Boys. You'll also learn how to deal with family and friends and strangers that don't understand your parenting approach. I'll answer questions like: Are you trying to make her androgynous? Won't that make him gay? Why are you so anti feminine/anti masculine? Do you think she's trans? You're raising a person, not a social experiment. She's going to hate you and need therapy. Or: He'll be bullied. I can't believe you let her play with Barbies. Don't you even care about her future? This book is for any parent, grandparent, or childcare teacher that wants a guide to raising kids without the strict limitations of gender roles and who wants to engage kids in conversations that will make them savvy media consumers and critical problem solvers around issues of gender and equality.
