**Durkheim and Foucault** Mark Sydney Cladis, 1999 Education and punishment are two crucial sites of the disciplinary society approached by Durkheim and Foucault from different perspectives but also in a shared concern with what kind of society might constitute an emancipatory alternative This collection of essays explores the issues that are involved and that are illuminated through a comparison and contrast of two social theorists who at first sight might seem an unlikely couple Durkheim and Foucault Punishment and Modern Society David Garland, 2024-05-31 In this path breaking book David Garland argues that punishment is a complex social institution that affects both social relations and cultural meanings Drawing on theorists from Durkheim to Foucault he insightfully critiques the entire spectrum of social thought concerning punishment and reworks it into a new interpretive synthesis Punishment and Modern Society is an outstanding delineation of the sociology of punishment At last the process that is surely the heart and soul of criminology and perhaps of sociology as well punishment has been rescued from the fringes of these disciplines This book is a first class piece of scholarship Graeme Newman Contemporary Sociology Garland s treatment of the theorists he draws upon is erudite faithful and constructive Punishment and Modern Society is a magnificent example of working social theory John R Sutton American Journal of Sociology Punishment and Modern Society lifts contemporary penal issues from the mundane and narrow contours within which they are so often discussed and relocates them at the forefront of public policy This book will become a landmark study Andrew Rutherford Legal Studies This is a superbly intelligent study Its comprehensive coverage makes it a genuine review of the field Its scholarship and incisiveness of judgment will make it a constant reference work for the initiated and its concluding theoretical synthesis will make it a challenge and inspiration for those undertaking research and writing on the subject As a state of the art account it is unlikely to be bettered for many a year Rod Morgan British Journal of Criminology Winner of both the Outstanding Scholarship Award of the Crime and Delinquency Division of the Society for the Study of Social Problems and the Distinguished Scholar Award from the American Sociological Association s Crime Law and Deviance Section **Durkheim and Modern Education** W.S.F. Pickering, Geoffrey Walford, 2002-09-11 This volume explores Durkheim s place in modern educational thought at three different levels Durkheim s ideas on education are analyzed and placed in the context of modern society current educational issues are explored using a Durkheimian framework Durkheim s thought is related to that of modern educational theorists to reveal his enduring influence In discussing Durkheim s modern relevance the contributors stress his desire to integrate the practical and theoretical aspects of education They identify particular pertinence in his focus upon the moral base of education and his insistence upon the importance of the social and society **Discipline and Punish** Michel Foucault, 1979 In this brilliant study one of the most influential philosophers alive sweeps aside centuries of sterile debate about prison reform and gives a highly provocative account of how penal institutions and the power to punish became a part of our lives Foucault explains the alleged failures of the modern prison by showing

how the very concern with rehabilitation encourages and refines criminal activity      **Moral Education** Émile Durkheim, 1961      *Emile Durkheim on Crime and Punishment (An Exegesis)* Seamus Breathnach, 2002 in civilised society the rising crime rate is a thing of terror Clever governments manipulate it the public messianically fear it and the social scientists misunderstand it In the face of such confusion Emile Durkheim reminds us that without a crime rate society is utterly impossible it cannot constitute itself maintain its solidarity or develop morally In short we cannot live with or without a crime rate This dissertation is an exegetical work and attempts to unpack the Criminology of Emile Durkheim It is divided into six chapters five of which are expository the sixth critical It begins with a look in overview at Durkheim's philosophy and how it underpins his theories of crime and punishment chap 1 By their nature theories of crime and punishment chap 2 presuppose the more primary theoretical formulations both of evolution and society chap 3 the one answering the theoretical time requirement the other the spatial requirement and each symbiotically related to the other in an integral theory of social evolution Durkheim's treatment of the modern State and the Conscience Collective as an organ of social control chap 4 is of primary importance not least because it underpins his treatment of the broader issues such as the connection between civil and criminal law morality and authority chap 5 Since there is hardly a serious Durkheimian proposition that is reducible to a provable or an uncontentious fact chap 6 it can hardly surprise us that on the one hand he attracted such copious criticism and on the other has remained perhaps the most popular sociologist of the twentieth and twenty first centuries      *Foucault and Education* Stephen J. Ball, 1990 An examination of the applications of Foucaultian social analysis to education The text argues that schools are often artificial highly disciplined environments which provide grounds for case studies for Foucault's concern with the technologies of power and arbitrariness
