Encyclopedia of Historical Archaeology Charles E. Orser Jr,2002-09-11 The Encyclopedia of Historical Archaeology is a ground breaking compendium of information about this ever growing field Concentrating on the post 1400 period as well as containing generic explanations of historical archaeology where needed the encyclopedia is compiled by over 120 experts from around the world and contains more than 370 entries covering important concepts and sites

International Handbook of Historical Archaeology Teresita Majewski,David

Gaimster,2009-06-07 In studying the past archaeologists have focused on the material remains of our ancestors Prehistorians generally have only artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior Those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved Increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context In short historical archaeology provides direct evidence for how humans have shaped the world we live in today Historical archaeology is a branch of global archaeology that has grown in the last 40 years from its North American base into an increasingly global community of archaeologists each studying their area of the world in a historical context Where historical archaeology started as part of the study of the post Columbian societies of the United States and Canada it has now expanded to interface with the post medieval archaeologies of Europe and the diverse post imperial experiences of Africa Latin America and Australasia The 36 essays in the International Handbook of Historical Archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology The volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world This key reference work captures the energy and diversity of this global discipline today **Advances in Archaeological Method and Theory** Michael B

Schiffer,2014-06-30 **Advances in Archaeological Method and Theory** Volume 11 is a collection of papers that discusses world systems theory modeling interregional interaction in prehistory and the archaeological analysis of ceramics Some papers review dating and weathering of inorganic materials strategies for paleo environmental reconstruction as well as deposits and depositional events One paper reviews the Old World state formation that occurred in West Asia during the fourth and third millennia B C Another paper examines the role of interactions among societies in the process of local social change and the need for archaeologists to develop a framework in which to analyze intersocietal interaction processes The presence of items such as ceramics is associated directly to factors of availability functions economic values or ethnic affiliation As an example one paper cites the use and misuse of English and American ceramics in archaeological analysis in identifying cultural patterns and human behavior Another paper notes that each biological or mechanical agent of transport and deposition has its own respective attributes on a deposit where the attributes of sedimentary particles on the deposit can be defined From such definitions the archaeologists can make observations and inferences Sociologists anthropologist ethnographers museum curators professional or amateur archaeologists and academicians studying historical antiquities will find the collection very useful **Adobe Walls** T.
