End Of The World Survival Kit For 2012 Or Any Other Doomsday:

End of the World Survival Kit Luis Montemayor, 2012-12-15 We've been told that the earth as we know it will end on December 21st 2012. So whether you believe it or not, the intent of this work is to give you a set of ideas that will help you survive that day in case of any particular circumstance that may occur on that day or any other day forward. Here you will find 43 different scenarios on how the end of the world as we know it will end and what you will need to do to face it and survive it successfully.

2012 and the End of the World Matthew Restall, Amara Solari, 2011-01-16 Did the Maya really predict that the world would end in December of 2012? If not, how and why has 2012 millenarianism gained such popular appeal? In this deeply knowledgeable book, two leading historians of the Maya answer these questions in a succinct, readable, and accessible style. Matthew Restall and Amara Solari introduce, explain, and ultimately demystify the 2012 phenomenon. They begin by briefly examining the evidence for the prediction of the world's end in ancient Maya texts and images, analyzing precisely what Maya priests did and did not prophesize. The authors then convincingly show how 2012 millenarianism has roots far in time and place, from Maya cultural traditions but in those of medieval and Early Modern Western Europe. Revelatory, myth-busting, while remaining firmly grounded in historical fact, this fascinating book will be essential reading as the countdown to December 21, 2012 begins.

The Maya Apocalypse and Its Western Roots Matthew Restall, Amara Solari, 2021-08-26 This fascinating history explores the cultural roots of our civilization's obsession with the end of the world. Busting the myth of the ancient Maya prediction that time would end in 2012, Matthew Restall and Amara Solari build on their previous book *2012 and the End of the World* to use the Maya case to connect such seemingly disparate historical events as medieval European millenarianism, Moctezuma's welcome to Cortés, Franciscan missionizing in Mexico, prophetic traditions in Yucatan, and the growing belief today in conspiracies and apocalypses. In demystifying the 2012 phenomenon, the authors draw on their decades of scholarship to provide an accessible and engaging explanation of what Mayas and Aztecs really believed, how Judeo-Christian apocalypticism became part of the Indigenous Mesoamerican and modern American worlds, and why millions continue to anticipate an imminent Doomsday.

Bracing for the Apocalypse Anna Maria Bounds, 2020-06-04 Increasing American fear about terrorism, environmental catastrophes, pandemics, and economic crises has fueled interest in prepping, confronting disaster by mastering survivalist skills. This trend of self-reliance is not merely evidence of the American belief in the power of the individual; rather, this pragmatic shift away from expecting government aid during a disaster reflects a weakened belief in the bond between government and its citizens during a time of crisis. This ethnographic study explores the rise of the urban preppers subculture in New York City, shedding light on the distinctive approach of city dwellers in preparing for disaster. With attention to the role of factors such as class, race, gender, and one's expectations of government, it shows that how one imagines Doomsday affects how one prepares for it. Drawing on participant observation, the author explores preppers' views on the central question of whether to bug out or hunker down in

the event of disaster and examines the ways in which the prepper economy increases revenue by targeting concerns over developing skills building networks securing equipment and arranging a safe locale A rich qualitative study Bracing for the Apocalypse will appeal to scholars of sociology and anthropology with interests in urban studies ethnography and subcultures
