Endeavor Legends Of Family And Friends:

Endeavor Robert L. and Fran Williams Smith, 2014-03 Endeavor to try to do to set about to owe to be under obligation to try hard to exert effort to make an earnest attempt to strive Endeavor begins as a story of five families related by blood marriage and a sixth surrogate family by love and friendship It was the sixth family that raised an important question for the author as to how he defines family Are they family only those who are related by blood marriage or are they friendship legal action or something broader associated with functions that are similar to what we normally associate with a family Endeavor is about people who spent their entire lives striving to achieve something better for their families themselves and others without depreciating the value of their work contribution or others with whom they shared many things not the least of which often was unemployment and poverty Only one thing could overwhelm them fear of losing hope and their belief that things would be better It was their mantra for living Often beaten down they were rarely overwhelmed You will meet the Smiths immigrants from central Germany early in the nineteenth century You also will meet the Dungan s who came to the United States during the great potato famine in Ireland during the mid 1840s Neither as they frequently said Had a pot to pee in The mix of these two families three or four generations later is responsible for the author s presence in a peculiar form of memoir A second line of decent explains my wife s presence Her family came from very old lines in England specifically Cornwall Devon and Wales Her father immigrated to the United States at the very beginning of the 20th century and his future wife two years later The story begins with the Smiths peasants living in the Ruhr Valley early in the 19th Century where they labored in the coalmines and on their own small patch of land carved from the dark forest which was their first step up the ladder of achievement In those days work was communal as was most of life s other requirements The opening chapter is followed by the story of the Dungans beginning in the early 1850s They were dirt poor Irish who traded a potato famine starvation and poverty for a little land in a new world Kentucky Both stories will take the reader to the Great Depression of the 1930 s that shaped an American culture for two generations The third chapter will introduces the Williams Old and Goss families a treasure of Cornish cousins who formed tight family units for many generations and who generously included my wife and myself to their group when I married into the Williams family The Lows our adopted family are introduced in the sixth chapter Families at War From there on we leave it to the reader to sort out a remarkable collection of people who became the source of our human fire When we were alone with the wind crying Offered us the warmth of a human fire Partial quote from Many Winters by Nancy Wood [The Routledge Companion to Asian Family Business](#) Ho-Don Yan, Fu-Lai Tony Yu, 2021-04-27 This companion provides broad and in depth insights into family business in Asia and how Asian family firms navigate in the digital economy The first part of the book looks at key concepts of family business while the second part presents Asian family firms cases from Japan South Korea China Taiwan Hong Kong Thailand Malaysia and other Asian economies This comprehensive reference will help readers understand how family firms in Asia compete and survive in the
