Procedural and moral shortcomings in both child abuse cases and the long term deployment of undercover police officers have raised questions about the effectiveness and efficacy of intelligence work and yet intelligence work plays an ever growing role in policing Part of a new series on evidence based policing this book is the first to offer a comprehensive fully up to date account of how police can and do use intelligence assessing the threats and opportunities presented by new digital technology like the widespread use of social media and the emergence of big data and applying both a practical and an ethical lens to police intelligence activities **The New York Times Index** ,2004 *Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards* ,2006 *Applied Police Research* Ella Cockbain,Johannes Knutsson,2014-09-15 Remarkably little has been written about the theory and practice of applied police research despite growing demand for evidence in crime prevention Designed to fill this gap this book offers a valuable new resource It contains a carefully curated selection of contributions from some of the world s leading applied police researchers Together the authors have almost 300 years of relevant experience across three continents The volume contains both practical everyday advice and calls for more fundamental change in how police research is created consumed and applied It covers diverse topics including the art of effective collaborations the interaction between policing academia and policy the interplay between theory and practice and managing ethical dilemmas This book will interest a broad and international audience from academics and students to police management officers and trainees to policymakers and research funders The Influence of Intelligence-led Policing Models on Investigative Policy and Practice in Mainstream Policing 1993-2007 Adrian James,2011 This research addressed the question What is the National Intelligence Model NIM why did it emerge and how has it influenced police organisational structures and investigative practice The NIM embodied the apotheosis of intelligence led policing ILP policy in Britain Allied to the pre existing intelligence cycle it represented an eclectic pick n mix of strategies that aimed to deliver effectiveness and best value in policing Sir David

Phillips sponsor of the model and President of the Association of Chief Police Officers ACPO during a key period in its development wanted it to overhaul intelligence work and revolutionise investigative practice in the mainstream Through archival secondary and primary research the thesis examined the NIM s policy content in the context of Kingdon s Agenda Setting approach to policymaking It evaluated the roll out of the NIM through the lens of Sabatier s policy implementation model drawing on primary research in the form of case studies that included observations and interviews with senior police commanders officers and other officials Ultimately Phillips plans were confused by commanders orthodoxy and frustrated both by competing agendas within ACPO and the paucity of evidence that the NIM could deliver what he had promised Phillips policy entrepreneurship was the key factor in the model gaining support in ACPO and the Home Office However beyond that policymaking arena few commanders were willing to effect the structural changes that the Home Office codified model demanded Instead they seemed to adopt compliance tactics that disguised resistance and forestalled sanction Orthodoxy resistance and tradition played significant parts in the resulting NIM compliant activity in forces as with few complaints officers and staff dutifully applied the model in a myriad of inefficient ways Ultimately the NIM added to the burden of bureaucracy but the end result was that British policing ended up looking very much the way it had before the NIM narrative began
