Participatory Media Anders Ekström, Solveig Jülich, FRANS LUNDGREN, Per Wisselgren, 2012-07-26 This book argues for a historical perspective on issues relating to the notion of participatory media Working from a broad concept of media including essays on the 19th century press early sound media photography exhibitions television and the internet the book offers a broad empirical approach to different modes of audience participation from the mid 19th century to the present Using the insights from the historical case studies the book also explores some of the key concepts in discussions on the politics of participation arguing for a theoretical perspective sensitive to the asymmetries that characterize the distribution of agency in the relationship between media and users Scholarly discussions on participatory media now occur in several fields This book argues that all of these discussions are all too often obscured by a rhetoric of newness assuming that participatory media is something unique in history radical and revolutionary By challenging the historiography implicit in this rhetoric the book also engages in a discussion of issues of more general relevance to the multidisciplinary field of media history

Chronotopes & Dioramas Dominique Gonzalez-Foerster, 2010 Text by Lynne Cooke Enrique Vila Matas **Activities for Before & After School** David W. Pratt, Mardi A. Gork, 1991 Working Against Odds Mary Grimley Mason, 2004 Mary Grimley Mason describes the viewpoints struggles strategies and triumphs of eighteen women with a range of physical and sensory impairments She relates how each came to terms with her disability and achieved self identity and self sufficiency in an able bodied world Drawing on thirty extensive interviews Mason skillfully interweaves her own experience of childhood polio with the voices of impaired women across generations and from diverse race ethnic class and work backgrounds Although each woman's story and perspective are unique the compelling narratives in this illuminating and teachable volume reveal shared concerns and feelings about the ways in which the disabled see themselves how others perceive the impaired and how our workplace culture perpetuates the double hindrance of gender and disability discrimination The women profiled here express in their own words the process of claiming their disability and integrating it into their identity the adjustment to

various dependencies and caregivers and approaches to coping with social discrimination and marginalization. They also discuss overcoming such obstacles in the workplace as an employer's refusal to grant an interview, lack of accommodations after employment, and negative stereotyping on the job or in job placement. In these accounts we meet, for example, Debbie, born with cerebral palsy who struggled to get her family to accept her as she is; Barbara, born with orthopedic problems who confronted her mother's fear that she would not be employed or find a husband; and Adrienne, blind from birth who aggressively confronted discrimination in the workplace through litigation. Taken together, the stories of these ordinary yet remarkable individuals build a sense of community. *Working against Odds* tells disabled women that they are not alone in grappling with the tremendous barriers to independence and helps able-bodied readers understand the challenging life choices and work experiences of those with impairments. As a whole, the insightful book offers an intimate view of disability history and issues in America.
