**Facilities and Workplace Design** Quarterman Lee, Arild Eng Amundsen, William Nelson, Herbert Tuttle, 1997 Today's rapidly changing marketplace can seem like a jungle for many professionals. Engineering Management Press offers the books needed to navigate through the wilderness of business techniques and acronyms. EMP's titles provide practical information and proven business methods for most corporate and industrial environments. Our titles cover crucial, timely topics of importance to businesses and managers today: management productivity improvement, quality, and related issues. Downsizing, teams, product focus, work cells—these business and manufacturing trends are changing the face of facilities today. Because facilities are strategic elements of any enterprise, companies cannot afford to build new structures or revamp old ones without careful planning. Written for both new and experienced designers and IEs, *Facilities and Workplace Design* features 25 illustrated tasks that can be applied to most projects. Layout at the building and departmental levels is the central issue, but site planning, workstation design, and material handling are also addressed. The third book in the *Engineers in Business* Series, this truly is a practical guide for the 90s and beyond.

**The HR Value Proposition** David Ulrich, Wayne Brockbank, 2005-05-11 The international best seller *Human Resource Champions* helped set the HR agenda for the 1990s and enabled HR professionals to become strategic partners in their organizations. But earning a seat at the executive table was only the beginning. Today's HR leaders must also bring substantial value to that table. Drawing on their 16-year study of over 29,000 HR professionals and line managers, leading HR experts Dave Ulrich and Wayne Brockbank propose *The HR Value Proposition*. The authors argue that HR value creation requires a deep understanding of external business realities and how key stakeholders both inside and outside the company define value. Ulrich and Brockbank provide practical tools and worksheets for leveraging this knowledge to create HR practices, build organizational capabilities, design HR strategy, and marshal resources that create value for customers, investors, executives, and employees. Written by the field's premier trailblazers, this book charts the path HR professionals must take to help lead their organizations into the future. Ulrich is a professor at the University of Michigan School of Business and the author of 12 books and more than 100 articles on the subject of human resources. Brockbank is a clinical professor of business at the University of Michigan School of Business, the author of award-winning papers on HR strategy, and an adviser to top global organizations.
