Written in the 17th century during the French Classicism period, these fables are characterized by their elegant prose, clever use of animal protagonists, and witty allegorical conclusions. La Fontaine's style reflects a deep engagement with the works of Aesop and Phaedrus, yet he elevates these stories with his distinctive French sensibility, creating a rich literary context that engages readers on both intellectual and emotional levels. Jean de La Fontaine, born in 1621, was a prominent fable writer and poet whose experiences as a courtier and his connections with influential literary circles in France shaped his exploration of human vices and virtues. His works often served as a subtle critique of the society of his time, delivering moral lessons that resonate with universal themes. Through his fables, La Fontaine merged art and ethics, encouraging readers to reflect on their own lives amid the tapestry of French cultural life. Readers are invited to delve into this collection as it remains relevant and engaging, bridging the gap between centuries of thought. *The Original Fables of La Fontaine* not only entertains but also provides profound insights into moral philosophy, making it a must-read for anyone interested in literature that challenges and enriches the understanding of human behavior. **Fables de La Fontaine. Fables de La Fontaine with Grammatical Explanatory, & Etymological Notes Jean de La Fontaine, 1895 [The Original Fables of La Fontaine \[electronic Resource\]](#) Jean de La Fontaine, 2005 *The Original Fables of La Fontaine* Jean de la Fontaine, 2016-02-29 The Fables of Jean de La Fontaine were issued in several volumes from 1668 to 1694. They are classics of French literature. The subject of each of the Fables is often common property of many ages and races. What gives La Fontaine's Fables their rare distinction is the freshness in narration, the deftness of touch, the unconstrained suppleness of metrical structure, the unfailing humor of the pointed, the consummate art of their apparent artlessness. Keen insight into the

foibles of human nature is found throughout but in the later books ingenuity is employed to make the fable cover yet convey social doctrines and sympathies more democratic than the age would have tolerated in unmasked expression Almost from the start the Fables entered French literary consciousness to a greater degree than any other classic of its literature For generations many of these little apologues have been read committed to memory recited paraphrased by every French school child Countless phrases from them are current idioms and familiarity with them is assumed La Fontaine's Fables wrote Madame de Sevigne are like a basket of strawberries You begin by selecting the largest and best but little by little you eat first one then another till at last the basket is empty Silvestre de Sacy has commented that they supply delights to three different ages the child rejoices in the freshness and vividness of the story the eager student of literature in the consummate art with which it is told the experienced man of the world in the subtle reflections on character and life which it conveys Nor has any one with the exception of a few paradoxers like Rousseau and a few sentimentalists like Lamartine denied that the moral tone of the whole is as fresh and healthy as its literary interest is vivid The book has therefore naturally become a standard French reader both at home and abroad
