shaped the modern Pacific and its historians *Travel and Colonialism in 21st Century Romantic Historical Fiction* Paloma Fresno-Calleja, Hsu-Ming Teo, 2024-12-16 Romantic fiction has often involved stories of travel In narratives of the journey towards love romance often involves encounters with exotic places and peoples When history is invoked in such stories the past itself is exoticised and treated as other to the present to serve the purposes of romanticisation a narrative strategy by which all manner of things settings characters costumes customs consumables are made to perform a luxuriant otherness that amplifies the experience of love This volume questions the reparative function of Anglophone romantic historical fiction to ask can plots of travel and discourses of tourism empower women while narrating stories of healing for the wounds of the past This is the first volume to consider how romanticised and exoticised women s historical fiction not only serves the purposes of armchair travel but may also replicate colonial discourse unintentionally positioning readers as neocolonial neo Orientalist cultural voyeurs as well as voyagers

The South Seas Sean Brawley, Chris Dixon, 2015-04-21 The South Seas charts the idea of the South Seas in popular cultural productions of the English speaking world from the beginnings of the Western enterprise in the Pacific until the eve of the Pacific War Building on the notion that the influences on the creation of a text and the ways in which its audience receives the text are essential for understanding the historical significance of particular productions Sean Brawley and Chris Dixon explore the ways in which authors and producers ideas about the South Seas were haunted by others who had written on the subject and how they in turn influenced future generations of knowledge producers The South Seas is unique in its examination of an array of cultural texts Along with the foundational literary texts that established and perpetuated the South Seas tradition in written form the author explores diverse cultural forms such as art music theater film fairs platform speakers surfing culture and tourism

that continued into the twentieth century The White Pacific ranges over the broad expanse of Oceania to reconstruct the history of blackbirding slave trading in the region It examines the role of U S citizens many of them ex slaveholders and ex confederates in the trade and its roots in Civil War dislocations What unfolds is a dramatic tale of unfree labor conflicts between formal and informal empire white supremacy threats to sovereignty in Hawaii the origins of a White Australian policy and the rise of Japan as a Pacific power and putative protector It also pieces together a wonderfully suggestive history of the African American presence in the Pacific Based on deft archival research in Australia New Zealand Fiji Hawaii the United States and Great Britain The White Pacific uncovers a heretofore hidden story of race labor war and intrigue that contributes significantly to the emerging intersectional histories of race and ethnicity Imperial Benevolence Jane Samson,1998-07-01 This insightful analysis of British imperialism in the south Pacific explores the impulses behind British calls for the protection and improvement of islanders From kingmaking projects in Hawaii Tonga and Fiji to the antislavery campaign against the labor trade in the Western pacific the author examines the deeply subjective cultural roots permeating Britons attitudes toward Pacific Islanders By teasing out the connections between those attitudes and the British humanitarian and antislavery movements Imperial Benevolence reminds us that nineteenth century Britain was engaged in a global campaign for Christianization and Civilization **Film Analysis** Jeffrey Geiger,R. Reimagining the American Pacific Rob Wilson,2000 In this compelling critique Rob Wilson explores the creation of the Pacific Rim in the American imagination and how the concept has been variously adapted and resisted in Hawai i the Pacific Islands New Zealand and Australia Reimagining the American Pacific ranges from the nineteenth century to the present and draws on theories of postmodernism transnationality and post Marxist geography to contribute to the ongoing discussion of what constitutes global and local Wilson begins by tracing the arrival of American commerce and culture in the Pacific through missionary and imperial forces in the nineteenth century and the parallel development of Asia Pacific as an idea Using an impressive range of texts from works by Herman Melville James Michener Maori and Western Samoan novelists and Bamboo Ridge poets to Baywatch films and musicals such as South Pacific and Blue Hawaii and native Hawaiian shark god poetry Wilson illustrates what it means for a space to be regionalized Claiming that such places become more open to transnational flows of information labor finance media and global commodities he explains how they then become isolated their borders simultaneously crossed and fixed In the case of Hawai i Wilson argues that culturally innovative risky forms of

symbol making and a broader more global vision of local plight are needed to counterbalance the racism and increasing imbalance of cultural capital and goods in the emerging postplantation and tourist centered economy Reimagining the American Pacific leaves the reader with a new understanding of the complex interactions of global and local economies and cultures in a region that since the 1970s has been a leading trading partner of the United States It is an engaging and provocative contribution to the fields of Asian and American studies as well as those of cultural studies and theory literary criticism and popular culture
