Fools Frauds Firebrands Thinkers Left:

Fools, Frauds and Firebrands Roger Scruton, 2015-10-08 The thinkers who have been most influential on the attitudes of the New Left are examined in this study by one of the leading critics of leftist orientations in modern Western civilization Scruton begins with a ruthless analysis of New Leftism and concludes with a critique of the key strands in its thinking He conducts a reappraisal of such major left wing thinkers as E P Thompson Ronald Dworkin R D Laing Jurgen Habermas Gyorgy Lukacs Jean Paul Sartre Jacques Derrida Slavoj Zizek Ralph Milliband and Eric Hobsbawm In addition to assessments of these thinkers philosophical and political contributions the book contains a biographical and bibliographical section summarizing their careers and most important writings In *Thinkers of the New Left* Scruton asks what does the Left look like today and as it has evolved since 1989 He charts the transfer of grievances from the working class to women gays and immigrants asks what can we put in the place of radical egalitarianism and what explains the continued dominance of antinomian attitudes in the intellectual world Can there be any foundation for resistance to the leftist agenda without religious faith Scruton's exploration of these important issues is written with skill perception and at all times with pellucid clarity The result is a devastating critique of modern left wing thinking

The Critique of Religion and Religion's Critique, 2020-04-14 In *The Critique of Religion and Religion's Critique On Dialectical Religiology* Dustin J Byrd compiles numerous essays honouring the life and work of the Critical Theorist Rudolf J Siebert His dialectical religiology rooted in the critical theory of the Frankfurt School especially Theodor Adorno Max Horkheimer Walter Benjamin Herbert Marcuse Erich Fromm Leo L wenthal and Jurgen Habermas is both a theory and method of understanding religion's critique of modernity and modernity's critique of religion Born out of the Enlightenment and its most important thinkers i e Kant Hegel Marx Nietzsche and Freud religion is understood to be dialectical in nature It contains within it both revolutionary and emancipatory elements but also reactionary and regressive elements which perpetuate mankind's continual debasement enslavement and oppression Thus religion by nature is conflicted within itself and thus stands against itself Dialectical Religiology attempts to rescue those elements of religion from the dustbin of history and reintroduce them into society via their determinate negation As such it attempts to resolve the social political theological and philosophical antagonisms that plague the modern world in hopes of producing a more peaceful justice filled equal and reconciled society The contributors to this book recognize the tremendous contributions of Dr Rudolf J Siebert in the fields of philosophy sociology history and theology and have profited from his long career This book attempts to honour that life and work Contributors include Edmund Arens Gregory Baum Francis Brassard Dustin J Byrd Denis R Janz Gottfried K enzlen Mislav Kuko Michael R Ott Rudolf J Siebert Hans K Weitensteiner and Brian C Wilson

Conversations with Roger Scruton Mark Dooley, Roger Scruton, 2016-05-19 A candid and personal insight into the life and work of the philosopher and writer Roger Scruton by his intellectual biographer Mark Dooley This book reveals what life was like for Roger Scruton growing up in High Wycombe how he survived

Cambridge and how he came to hold his conservative outlook It tells of Scruton's rise to prominence while writing for The Times and sheds light on his campaign on behalf of underground dissidents in Eastern Europe Ranging across topics as diverse as the current state of British philosophy music religion and illuminating what lay behind Scruton's abandonment of academia for his new life on a Wiltshire farm Conversations with Roger Scruton is an intimate portrait of a writer who has felt philosophy as a vocation and whose defence of unfashionable causes has brought him a wide readership in Britain and around the world

Social Justice Goes To Church: The New Left in Modern American Evangelicalism Jon

Harris, 2020-10-06 The infusion of social justice into the gospel may well be the most dangerous problem facing the church today Yet it is going unnoticed in far too many circles Social Justice Goes to Church can serve as a wake up call Samuel C Smith Ph D Chair and Graduate Program Director Department of History Liberty University In order to understand why so many evangelicals recently support left leaning political causes it is important to know a little history In the 1970s many campus radicals raised in Christian homes brought neo Marxist ideas from college back to church with them At first figures like Jim Wallis Ron Sider and Richard Mouw made great gains for their progressive evangelical cause But after the defeat of Jimmy Carter the religious right stole the headlines Today a new crop of mainstream evangelicals has taken up the cause of the New Left whether they know it or not As pro life evangelicals rush to support movements like BlackLivesMatter and MeToo it is important to realize they are walking in footprints already laid down Their mission may be more successful but it is not new To understand where the evangelical social justice movement is heading it is vital to understand the origins of the movement Social Justice Goes to Church The New Left in Modern American Evangelicalism answers from a historical perspective the vital question Why are American evangelicals moving Left The great injunction to the Church was to preach the Gospel to the world while not being of the world Social justice neatly reverses this trend preaching the ways of the world into the church That is not its only critical reversal The Gospel is about freedom from guilt and sin and bondage Social justice seeks above all to apportion guilt and sin and bondage enslaving entire demographics and requiring that they kneel before man in attrition How important that a book of this nature should enter the fray right now I applaud Mr Harris for his excellent work in providing the practical means of identifying and repelling this fraudulent force this ideological interloper this dangerous false teaching Douglas Kruger Author of Political Correctness Does More Harm Than Good How to Identify Debunk and Dismantle Dangerous Ideas

Transilvania, 2017 *Confessions of a Heretic* Roger Scruton, 2017-03-28 Hard hitting essays by acclaimed social commentator and philosopher Roger Scruton guaranteed to provoke lively debate A wide ranging selection that includes essays on architecture and modern art the environment politics and culture Each confession reveals aspects of the author's thinking that his critics would probably have advised him to keep to himself Roger Scruton challenges popular opinion on key aspects of our society What can we do to protect Western values against Islamic extremism How can we nurture real friendship in the digital age of social media and Facebook How should we achieve a

timely death against the advances of modern medicine How should environmental policies be shaped by the government This provocative collection seeks to answer the most pressing problems of our age *Confessions of a Heretic, Revised Edition* Roger Scruton, 2021-08-24 A revised edition of the Notting Hill Editions essay collection by the late Sir Roger Scruton with a new introduction by Douglas Murray Confessions of a Heretic is a collection of provocative essays by the influential social commentator and polemicist Roger Scruton Each confession reveals aspects of the author's thinking that his critics would probably have advised him to keep to himself In this selection covering subjects from art and architecture to politics and nature conservation Scruton challenges popular opinion on key aspects of our culture What can we do to protect Western values against Islamist extremism How can we nurture real friendship through social media Why is the nation state worth preserving How should we achieve a timely death against the advances of modern medicine This provocative collection seeks to answer the most pressing problems of our age In his introduction the bestselling author and commentator Douglas Murray writes of what it cost Scruton to express views considered unpalatable and of the importance of these ideas after Scruton's death *On Human Nature* Roger Scruton, 2017-02-14 A brief radical defense of human uniqueness from acclaimed philosopher Roger Scruton In this short book acclaimed writer and philosopher Roger Scruton presents an original and radical defense of human uniqueness Confronting the views of evolutionary psychologists utilitarian moralists and philosophical materialists such as Richard Dawkins and Daniel Dennett Scruton argues that human beings cannot be understood simply as biological objects We are not only human animals we are also persons in essential relation with other persons and bound to them by obligations and rights Our world is a shared world exhibiting freedom value and accountability and to understand it we must address other people face to face and I to I Scruton develops and defends his account of human nature by ranging widely across intellectual history from Plato and Averroes to Darwin and Wittgenstein The book begins with Kant's suggestion that we are distinguished by our ability to say I by our sense of ourselves as the centers of self-conscious reflection This fact is manifested in our emotions interests and relations It is the foundation of the moral sense as well as of the aesthetic and religious conceptions through which we shape the human world and endow it with meaning And it lies outside the scope of modern materialist philosophy even though it is a natural and not a supernatural fact Ultimately Scruton offers a new way of understanding how self-consciousness affects the question of how we should live The result is a rich view of human nature that challenges some of today's most fashionable ideas about our species
