For More Than One Voice Toward A Philosophy Of Vocal Expression:

For More than One Voice Adriana Cavarero, 2005 The human voice does not deceive The one who is speaking is inevitably revealed by the singular sound of her voice no matter what she says Starting from the given uniqueness of every voice Cavarero rereads the history of philosophy through its peculiar evasion of this embodied uniqueness **Horrorism** Adriana Cavarero, 2009 In this brilliant book one of the world's most provocative feminist theorists and political philosophers introduces a new word horrorism to capture the experience of violence Unlike terror horrorism is a form of violation grounded in the offense of disfiguration and massacre Numerous outbursts of violence fall within Adriana Cavarero's category of horrorism especially when the phenomenology of violence is considered from the perspective of the victim rather than that of the warrior Through her searing analysis Cavarero proves that violence against the helpless claims a specific vocabulary one that has been known for millennia and not just to the Western tradition The Oxford Handbook of Virginia Woolf Anne E. Fernald, 2021-08-12 With thirty nine original chapters from internationally prominent scholars The Oxford Handbook of Virginia Woolf is designed for scholars and graduate students Feminist to the core each chapter examines an aspect of Woolf's achievement and legacy Each contribution offers an overview that is at once fresh and thoroughly grounded in prior scholarship Six sections focus on Woolf's life her texts her experiments her life as a professional her contexts and her afterlife Opening chapters on Woolf's life address the powerful influences of family friends and home The section on her works moves chronologically emphasizing Woolf's practice of writing essays and reviews alongside her fiction Chapters on Woolf's experimentalism pay special attention to the literariness of Woolf's writing with opportunity to trace its distinctive watermark while *Professions of Writing* invites readers to consider how Woolf worked in cultural fields including and extending beyond the Hogarth Press and the TLS The Contexts section moves beyond writing to depict her engagement with the natural world as well as the political artistic and popular culture of her time The final section on afterlives demonstrates the many ways Woolf's reputation continues to grow across the globe and across media in ideas and in artistic expression Of particular note chapters explore three distinct Woolfian traditions in fiction the novel of manners magical realism and the feminist novel *Poetry & the Dictionary* Andrew Blades, Piers Pennington, 2020-03-26 **Poetics and Precarity** Myung Mi Kim, Cristanne Miller, 2018-05-01 Poets and critics address the potential of language to address the increasing level of discord and precarity in the twenty first century At a time when wars acts of terrorism and ecological degradation have intensified and isolationism misogyny and ethnic divisiveness have been given distinctively more powerful voice in public discourse language itself often seems to have failed The poets and critics in this book argue that language has the potential to address this increasing level of discord and precarity and they negotiate ways to understand poetics or the role of the poetic in relation to language the body politic the human body breath the bodies of the natural environment and the body of form Poetry makes urgent issues audible and poetics helps to theorize those issues into critical consciousness Poetry also

functions as a cry to protest late capitalist imperialism misogyny racism climate change and all the debilitating conditions of everyday life Hubs of concern merge and diverge precarity takes differently gendered historied embodied geopolitical manifestations The contributors articulate a poetics that renders what has not yet been crystallized as discourse into fields of force They also acknowledge the beauties of sound poetry and music and celebrate the power of community marking the surge of energy that can occur at a particular place at a particular moment Ultimately Poetics and Precarity fosters further conversations that will imagine the concerns of poetics as a continuously emerging field *Reorienting the Middle East* Dale Hudson, Alia Yunis, 2024-01-16 Stories of desert landscapes cutting edge production facilities and lavish festivals often dominate narratives about film and digital media on the Arabian Peninsula However there is a more complicated history that reflects long standing interconnections between the Persian Gulf Arabian Sea and Indian Ocean Just as these waters are fluid spaces so too is the flow of film and digital media between cultures in East Africa Europe North Africa South Asia Southwest Asia and Southeast Asia *Reorienting the Middle East* examines past and contemporary aspects of film and digital media in the Gulf that might not otherwise be apparent in dominant frameworks Contributors consider oil companies that brought film exhibition to this area in the 1930s the first Indian film produced on the Arabian Peninsula in the late 1970s blackness in Iranian films the role of Western funding in reshaping stories Dubai's emergence in global film production uses of online platforms for performance art the development of film festivals and cinemas and short films made by citizens and migrants that turn a lens on racism sexism national identity and other rarely discussed social issues *Reorienting the Middle East* offers new methods to analyze the often neglected littoral spaces between nation states and regions and to understand the role of film and digital media in shaping dialogue between area studies and film and media studies Readers will find new pathways to rethink the limitations of dominant categories and frameworks in both fields *Practices of Leading Pedagogy* Christine Grice, 2025-11-01 This book examines the intersection between pedagogy and leadership in intersubjective spaces The intention is to discover answers to the most important question of educational leadership theory for practice today who leads learning This book addresses current misconceptions about pedagogical leadership and pedagogy in schools today It explores the evolution of pedagogy and pedagogical leadership over time from a philosophical perspective This book advocates for a return to philosophical thinking about learning and leading the child over teaching and skills while also reducing the binary between these fields Each chapter draws upon empirical research alongside theory and philosophy This book addresses key provocations about pedagogy and pedagogical leadership found in policy and professional learning that influence understandings that educational leaders have about the meaning of pedagogy and pedagogical leadership with implications for leading pedagogy in schools today *Contemporary Opera in Flux* Yayoi U Everett, 2024-10-15 In twelve essays *Contemporary Opera in Flux* discusses a series of shifts that taken together have radically redefined the production and reception of opera Focusing on productions involving late twentieth and twenty first century scores and libretti the

contributors draw on conversations with members of creative teams and studies of archival material dipping into a historical record that remains in flux as composers librettists directors and designers revisit existing work and create anew The contributors to this volume push the boundaries of contemporary opera scholarship by examining works that disrupt operatic conventions tackle sociopolitical issues such as drug trafficking racial injustice and cultural trauma and advance underrepresented works by female African American Asian and avant garde composers around the globe Contemporary Opera in Flux bridges the gaps between expanding literature on opera theater new music postmodern dramaturgy and posthuman aesthetics while also confronting larger questions of identity representation and narrative agency that are at the forefront of contemporary music scholarship This collection of essays engages critically with the past out of a conviction that amid general public perceptions of opera as anachronistic or elitist contemporary opera has emerged as an artistic incubator for experimentation

The Fact of Resonance Julie Beth Napolin, 2020-06-02 Shortlisted 2021 Memory Studies Association First Book Award

The Fact of Resonance returns to the colonial and technological contexts in which theories of the novel developed seeking in sound an alternative premise for theorizing modernist narrative form Arguing that narrative theory has been founded on an exclusion of sound the book poses a missing counterpart to modernism's question who speaks in the hidden acoustical questions who hears and who listens For Napolin the experience of reading is undergirded by the sonic The book captures and enhances literature's ambient sounds sounds that are clues to heterogeneous experiences secreted within the acoustical unconscious of texts The book invents an oblique ear a subtle and lyrical prose style attuned to picking up sounds no longer hearable Resonance opens upon a new genealogy of modernism tracking from Joseph Conrad to his interlocutors Sigmund Freud Frantz Fanon W E B Du Bois William Faulkner and Chantal Akerman the racialized gendered and colonial implications of acoustical figures that drift through and are transformed by narrative worlds in writing film and music A major synthesis of resources gleaned from across the theoretical humanities the book argues for resonance as the traversal of acoustical figures across the spaces of colonial and technological modernity figures registering and transmitting transformations of voice and sound across languages culture and modalities of hearing We have not yet sufficiently attended to relays between sound narrative and the unconscious that are crucial to the ideological entailments and figural strategies of transnational transatlantic and transpacific modernism The breadth of the book's engagements will make it of interest not only to students and scholars of modernist fiction and sound studies but to anyone interested in contemporary critical theory

A Politics of the Scene Paul A.

Kottman,2008 Juxtaposing readings of three plays of William Shakespeare and two major treatises in political philosophy Plato s Republic and Thomas Hobbes s Leviathan Kottman contests the figural ground from which political philosophy emerges and suggests how a Shakespearean sense of the scene might open up new avenues for thinking about politics A Politics of the Scene builds especially on the reflections of Hannah Arendt and offers a speculative approach to politics that abandons taxonomical and scientific ambitions in order to finally reckon with the world as a stage **Negotiating Italian Identities** Norma Bouchard,2006 *Shakespeare Studies* ,2004 **AdI** ,1983 *International Philosophical Quarterly* ,1961 Feminisms: Within and Without Rebecca Pelan,2006
