Forced Migration In Eastern Africa Democratization Structural Adjustment And Refugees:

Forced Migration in Eastern Africa C. Veney, 2006-12-11 This study enriches understanding of East Africa's refugee situation by examining the conditions that gave rise to it and how the refugees themselves sought to reconstruct their lives. Focusing on the 1990s, Veney compares Kenya and Tanzania, two nations that did not generate many refugees but became important hosts for the general region.

Refugees and Forced Migration in the Horn and Eastern Africa Johannes Dragsbaek Schmidt, Leah Kimathi, Michael Omondi Owiso, 2019-05-13 This volume sheds new light on the refugees and forced migration at the Horn of Africa and East Africa. Adopting a multidisciplinary perspective, it traces historical structural and geopolitical factors to reveal the often brutal uprooting of people in a region that hosts more than three million refugees and almost six million internally displaced persons (IDPs). By doing so, it enriches our understanding of the socio-economic, geopolitical, and humanitarian causes and implications of migration and population displacement. The book is divided into five parts focusing on different drivers of involuntary displacement and people's uprooting. The first part covers geopolitical conflicts rooted partly in the colonial and Cold War geographies. The second part then focuses on security aspects and conflicts, while the third looks at encampment and refugee policies as well as refugee agencies. Part four highlights issues of forced repatriation and human trafficking. Lastly, part five analyzes the dynamics of refugee camps.

Refugees, the State and the Politics of Asylum in Africa J. Milner, 2009-11-06 How do African states respond to the mass arrival and prolonged presence of refugees? This book answers this question by drawing on recent case studies and examining the politics behind refugee policy in Africa. The implications of this approach are important not only for the study of asylum in Africa but also for the future of refugee protection.

Asylum-Seeker and Refugee Protection in Sub-Saharan Africa Cristiano d'Orsi, 2015-08-11 It is not often acknowledged that the great majority of African refugee movement happens within Africa rather than from Africa to the West. This book examines the specific characteristics and challenges of the refugee situation in Sub-Saharan Africa, offering a new and critical vision on the situation of asylum seekers and refugees in the African continent. Cristiano d'Orsi considers the international, regional, and domestic legal and institutional frameworks linked to refugee protection in Sub-Saharan Africa and explores the contributions African refugee protection has brought to the cause on a global scale. Key issues covered in the book include the theory and the practice of non-refoulement, an analysis of the phenomenon of mass influx, the concept of burden sharing, and the role of freedom fighters. The book goes on to examine the expulsions of refugees and the historical role played by UNHCR in Sub-Saharan Africa. As a work which follows the persecution and legal challenges of those in search of a safe haven, this book will be of great interest and use to researchers and students of immigration and asylum law, international law, human rights, and African studies.

Immigration Worldwide Uma A. Segal, Doreen Elliott, Nazneen S. Mayadas, 2010-01-19 International migrants comprise one in 35 people or 3% of the world's population. This sweeping sourcebook explores immigration policies and processes in 25 countries and two world

regions serving as a valuable reference for scholars and students seeking a wide ranging yet nuanced survey of key issues salient to debates about how to best serve immigrant populations and their host countries Governing the Displaced Ali Bhagat, 2024-02-15 Governing the Displaced answers a straightforward question how are refugees governed under capitalism in this moment of heightened global displacement To answer this question Ali Bhagat takes a dual case study approach to explore three dimensions of refugee survival in Paris and Nairobi shelter work and political belonging Bhagat's book makes sense of a global refugee regime along the contradictory fault lines of passive humanitarianism violent exclusion and organized abandonment in the European Union and East Africa Governing the Displaced highlights the interrelated and overlapping features of refugee governance and survival in these seemingly disparate places In its intersectional engagement with theories of racial capitalism with respect to right wing populism labor politics and the everyday forms of exclusion the book is a timely and necessary contribution to the field of migration studies and to political economy **The Sage**
