Forces of Our Time Hooper C. Dunbar, 2009 Examines the character of the spiritual forces as set out in writings of Shoghi Effendi The first part considers the terms force energy and power in these writings while the second comprises a selection of quotations drawn from the writings of Shoghi Effendi many published here for the first time Dark Light Consciousness Edward Bruce Bynum, 2012-06-19 How to awaken the Ureaus the serpent power of spiritual transcendence within each of us and connect to the superconscious of the universe Reveals the biochemistry of how the body's melanin provides the template for the subtle energy body or light body Shows how embracing the dark light consciousness of the awakened Ureaus opens a portal to the sacred darkness of the superconscious Provides illustrated instructions for meditation practices breathing exercises and yoga postures to safely awaken Ureaus Kundalini energy Within each of us lies the potential to activate a personal connection to the superconscious Called Ureaus in ancient Egyptian texts and Kundalini in ancient Hindu yoga traditions our innate serpent power of spiritual transcendence inhabits the base of the spine in its dormant state When awakened it unfurls along the spinal column to the brain connecting individual consciousness to the consciousness of the universe enfolded within the dark matter of space At the root of creativity and spiritual genius across innumerable cultures and civilizations this intelligent force reveals portals that enfold time space and the luminous matrix of reality itself Combining physics neuroscience and biochemistry with ancient traditions from Africa and India Edward Bruce Bynum Ph D explores the ancient Egyptian science of the Ureaus and reveals how it is intimately connected to dark matter and to melanin a light sensitive energy conducting substance found in the brain nervous system and organs of all higher life forms He explains how the dark light of melanin serves as the biochemical infrastructure for the subtle energy body just as dark matter together with gravity holds the galaxies and constellations together With illustrated instructions he shows how to safely awaken and stabilize the spiritual energy of the Ureaus through meditation practices breathing exercises and yoga postures as well as how to prepare the subtle body for transdimensional soul travel By embracing the dark light of the shining serpent within we overcome our collective fear of the vast living darkness without By embracing the dark we transcend reality to the dimension of light *Dynamics of Spiritual Warfare* Nickson Banda, 2010-04-21 The book you are holding in your hands is designed to enhance your personal spiritual breakthrough over the forces of darkness It has both insights and instructions to shape your personal prayer life and to bring you to a new level of engaging the enemy The clarity of the truth about spiritual warfare contained herein and the grace of definition applied are a clear indication of the authors personal breakthrough experience in spiritual warfare Pastor Emmanuel Chanda Founder of Dunamis Motivations and founder of Friends of God Ministries International Johannesburg South Africa **Progress in Physics, vol. 4/2013** Dmitri Rabounski ,Florentin Smarandache, Larissa Borissova, The Journal on Advanced Studies in Theoretical and Experimental Physics including Related Themes from Mathematics The New Experience of the Supersensible Jesaiah Ben-Aharon, 2007 According to Rudolf

Steiner's spiritual science the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds. The force that leads to this development, called by various names in different cultural and religious traditions, is called the Christ impulse by Anthroposophy in accordance with Christian terminology. Because of new naturally endowed suprasensory faculties, human beings are increasingly able to experience and perceive through an act of grace the great spiritual force of the Christ impulse. This experience is said to be a naturally given initiation, and today we increasingly hear of such suprasensory experiences. Today, however, a healthy approach to these natural phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking. This book builds an all-important bridge between the naturally given suprasensory experience and its conscious cognition. As a result, empirical suprasensory research can investigate the different aspects of Christ's etheric becoming and appearance in a way that both methodically and experientially fulfils the justified cognitive and scientific requirements of our age. This new paperback edition adds a new introductory chapter.

Faith in Christ Today: Invitation to Systematic Theology Klaus Nurnberger, 2016-06-29. In Volume I the author analyses the Word of God and the response of the Christian community in a lucid and accessible way. In this second volume he interprets the classical assertions of the Christian faith in terms of God's creative and redemptive project in the world of today. His experiential approach is meant to restore the credibility, vibrancy and relevance of faith in Christ for our times.

The Grammar of Innovation Andrea Prencipe, Massimo Sideri, 2024-06-06. In *Six Memos for the Next Millennium* Italo Calvino elaborated on six concepts or memos to offer insights on the shapes of things to come, which were lightness, rapidity, exactness, visibility, multiplicity and consistency. To do so, the Italian writer embraced an interdisciplinary approach to describe each concept through juxtaposition of its antonyms: heaviness, slowness, indeterminacy, invisibility, uniqueness and inconsistency. Inspired by Calvino's intuition, this book puts forward the notion of the Calvino Method to interpret the inner dynamics of innovation processes. Drawing on literature and cases from the fields of innovation history, technology, organisation theory and corporate strategy, the book elaborates on each of the six concepts to offer a unique angle to understand innovation as technological, organisational and cultural change that generates value across a variety of domains. The linguistic juxtapositions at the root of the Calvino Method form the framework of *The Grammar of Innovation*, and the tension between opposites, which at first seems insoluble, emerges as the catalyst of future thought. This book will be of great interest to scholars of innovation strategy, organisation studies, philosophy of business and all those with an interest in the works of Italo Calvino.
