**Instructor's Solutions Guide** Walter Wilcox, Chris Thron, 2016-01-07 This instructor's solutions guide accompanies our introductory graduate electrodynamics textbook Macroscopic Electrodynamics. We emphasize that this is a guide and not a step by step exposition for the 391 problems furnished in the text. Helpful indications of starting points and methods are given as well as enough intermediate steps and occasional final results that a knowledgeable instructor can readily fill in the gaps. This approach is designed to provide the instructor with a powerful and time saving teaching aid for introducing students to this beautiful and wide ranging subject. This access is given only to instructors who are adopting the textbook for their classes. To gain access to this title please fill in the adoption form and we will get back to you soon.
