Downsizing Prisons How To Reduce Crime And End Mass Incarceration:

Downsizing Prisons Michael Jacobson,2005-02 A convincing argument that mass incarceration neither reduces crime nor ensures safety Over two million people are incarcerated in America s prisons and jails eight times as many since 1975 Mandatory minimum sentencing parole agencies intent on sending people back to prison three strike laws for profit prisons and other changes in the legal system have contributed to this spectacular rise of the general prison population After overseeing the largest city jail system in the country Michael Jacobson knows first hand the inner workings of the corrections system In *Downsizing Prisons* he convincingly argues that mass incarceration will not as many have claimed reduce crime nor create more public safety Simply put throwing away the key is not the answer *Prison Industrial Complex For Beginners* James Braxton Peterson,2016-09-15 *Prison Industrial Complex For Beginners* is a graphic narrative project that attempts to distill the fundamental components of what scholars activists and artists have identified as the Mass Incarceration movement in the United States Since the early 1990s activist critics of the US prison system have marked its emergence as a complex in a manner comparable to how President Eisenhower described the Military Industrial Complex Like its institutional cousin the Prison Industrial Complex features a critical combination of political ideology far reaching federal policy and the neo liberal directive to privatize institutions traditionally within the purview of the government The result is that corporations have capital incentives to capture and contain human bodies The Prison Industrial Complex relies on the law and order ideology fomented by President Nixon and developed at least partially in response to the unrest generated through the Civil Rights Movement It is and has been enhanced and emboldened via the US war on drugs a slate of policies that by any account have failed to do anything except normalize the warehousing of nonviolent substance abusers in jails and prisons that serve more as criminal training centers than as redemptive spaces for citizens who might re enter society successfully *Prison Industrial Complex For Beginners* is a primer for how these issues emerged and how our awareness of the systems at work in mass incarceration might be the very first step in reforming an institution responsible for some of our most egregious contemporary civil rights violations [The Oxford Handbook of Prisons and Imprisonment](#) John Wooldredge,Paula H. Smith,2018 *The Oxford Handbook of Prisons and Imprisonment* provides the only single source that bridges social scientific and behavioral perspectives providing graduate students with a more comprehensive understanding of the topic academics with a body of knowledge that will more effectively inform their own research and practitioners with an overview of evidence based best practices **National Institute of Justice Journal** ,2008 **The Rush for Black Diamonds, Volume Two** George Walters-Sleyon,2025-11-18 *The Rush for Black Diamonds Volume Two* demonstrates the need for a Reform Prison Theology and a Holistic Penal Ethics in the United States and the United Kingdom England and Wales and Scotland As a descriptive analytic and prescriptive engagement it contends that colonialism and penal slavery are the modern vestiges of the transatlantic slave trade and the institution of chattel slavery also made possible

by the Thirteenth Amendment of the US Constitution This book explores the transition from the institution of chattel slavery to colonialism and penal slavery prior to and after 1970 by the superpowers of the transatlantic slave trade including the US France and the UK It shows the intersections of the economic and racial influences of chattel slavery the Black Codes the preservation of the cult of White supremacy on the development of the post 1970 penal industries and their collateral effects of the high rates of prisoner deaths in the US and the UK Like John Locke and Thomas Jefferson Volume Two argues that Immanuel Kant provided the most concise philosophical claims for the emergence of the cult of White supremacy and its militant preservation through the Invisible Empire of the Ku Klux Klan against Black humanity Ohio State Journal of Criminal Law ,2012 *Washington University Journal of Law and Policy* ,2006 **Essays in Response to Bill Cosby's Comments about African American Failure** Theresa A. Mohamed,2006 Is black academic excellence a form of imitation of white values Bill Cosby repudiates the equation Although Bill Cosby s formulation of the issue could have been made less provocative he was indeed raising an important issue Has the achievement motive among African Americans been severely damaged by the history of enslavement and racism How can African Americans now transcend those inhibitions Foreword West Virginia Law Review ,2011 *Punishment and Inequality in America* Bruce Western,2006-05-25 Over the last thirty years the prison population in the United States has increased more than sevenfold including vastly disproportionate numbers of minorities and people with little education Almost 60 percent of black male high school dropouts in their early thirties have spent time in prison Once college or the military were the formative institutions in young men s lives but prison has increasingly usurped that role in many communities While many people support the increase in incarceration because of reductions in crime in the 1990s the author shows that the swelling prison population only explains one tenth of the fall in crime and has come at a significant cost The strong relationship between incarceration and severely dampened economic prospects for former inmates is also explored **Florida Law Review** ,2009 **Annual Review of Political Science** ,2008 The mission of Annual review of political science is to provide systematic periodic examinations of the field through critical authoritative reviews The comprehensive critical review not only summarizes a topic but also roots out errors of fact or concept and provokes discussion that will lead to new research activity Each review contains title author s key words abstracts review and bibliography **Prisons** Sylvia Engdahl,2010 The Current Controversies series examines today s most important social and political issues Each volume presents a diverse selection of primary sources representing all sides of the debate in question Book jacket **Model Penal Code Symposium** ,2009 Not Light But Fire Cassandra Shaylor,2007 *Federal Sentencing Reporter* ,2006 *Families in Society* ,2009 Latino/a Rights and Justice in the United States José Luis Morín,2009 A much needed and thought provoking examination of a significant and growing population within the United States Latino a Rights and Justice in the United States explores the inequalities and injustices that Latino a communities confront in the United States Author Jos Luis Mor n provides a deeper understanding of the historical and
