Dpko Engineering Manual:

South Africa and United Nations Peacekeeping Offensive Operations Garcia, Antonio, 2018-08-16 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIB s objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges

Documents on the Law of UN Peace Operations Bruce Oswald, Helen Durham, Adrian Bates, 2019-06-20 Since the first edition of this book was published in 2010 United Nations peace operations have evolved significantly In the Democratic Republic of the Congo Central African Republic and South Sudan UN peacekeepers are now engaged in building peace by fighting non State armed actors and must consider issues concerning the application of law and policy governing the use of armed force when protecting civilians In addition the UN and its peacekeepers are increasingly being held to higher standards of accountability to ensure that their engagement with local forces and populations meets normative requirements found in international humanitarian law and international human rights law This extensively revised edition of Documents on the Law of UN Peace Operations addresses the key normative principles rules and standards that have been a part of this evolution The book provides essential documents accompanied with commentary which identify and explain the legal framework or applicable legal norms involved in the planning management and conduct of UN peace operations Topics covered include obligations under international humanitarian law human rights law international criminal law and privileges and immunities Special attention is also paid to matters such as accountability the rule of law and the protection of civilians

The Use of Force in UN Peacekeeping Peter Nadin, 2018-02-06 This edited volume provides a detailed and nuanced analysis of UN peacekeeping and the use of force to inform a better understanding of the complex and interconnected issues at stake for the UN community Peacekeeping is traditionally viewed as a largely passive military activity governed by the principles of impartiality consent and the minimum use of force Today most large UN Peacekeeping

Operations are only authorized to use force in defence of their mandates and to protect civilians under imminent threat of physical violence Recently with the deployment of the Force Intervention Brigade in the DRC the UN has gone beyond peacekeeping and into the realm of peace enforcement These developments have brought to the fore questions regarding the use of force in the context of peacekeeping The key questions addressed in this book examine not only the utility of force but also the dilemmas and constraints inherent to the purposive use of force at a strategic operational and tactical level Should UN peacekeepers exercise military initiative Is UN peacekeeping capable of undertaking offensive military operations If so then under what circumstances should peacekeepers use force How should force be wielded And against whom With chapters written by experts in the field this comprehensive volume will be of great use and interest to postgraduate students academics and experts in international security the UN peacekeeping and diplomacy

Blue Malkit Shoshan, 2022-09-19 The book is part of FAST's ongoing activism research design and advocacy work It builds on earlier presentations including the exhibition BLUE Architecture of UN Peacekeeping Missions for the Dutch Pavilion of the 15th Venice Architecture Biennale At the intersection of architecture urban planning international relations and activism BLUE Architecture of UN

Peacekeeping Missions seeks not only to change UN missions but also to open up and expand the operative realm of architecture. It combines research and projects involving policymakers, military engineers and officers, anthropologists, local inhabitants, activists, rebels, diplomats and ministers, architects and planners. BLUE offers examples of how entrenched institutional bureaucracies can be confronted by using more inclusive models of engagement and it shows how designs rooted in local cultures and empowerment can address a history of violence.
