Electrolux Operating Manual:

Environmental Information in Instructions for Use of Consumer Products Ari Nissinen, 2005-03-11 The European Union has highlighted the issue of environmentally sound use of products in the context of Integrated Product Policy IPP. Accordingly consumers should have easy access to understandable relevant and credible environmental information. Information about product characteristics is available in different forms and sources but in many cases relevant environmental information is not available on the product itself. The study described in this report was initiated in order to produce information on the state of user instructions regarding environmental information. User manuals of passenger cars and refrigerators were focused on examining the advice which could diminish the harmful environmental effects of the use of these products. Other studied products included such durable products as textiles and furniture as well as such consumables as cleaning chemicals and recyclable paper products. The study raised many ideas about actions that could promote the status and eco development of instructions for use.

Organizational Behavior and Management John Ivancevich, Robert Konopaske, Michael Matteson, 2007-02

The author team Ivancevich Konopaske Matteson has examined listened and responded to reviewers instructors and students suggestions on how to continue to make *Organizational Behavior and Management* 8e a more user friendly and application rich introductory OB textbook. To accomplish this OBM 8e achieves the difficult goal of preserving its key strengths i.e. thorough current good balance of research and practice while streamlining its content by removing over 100 pages of readings that are now available on the Web. This reduction in page length makes the book more affordable teachable and efficient for students. Preserving scholarship while streamlining captures the spirit of what I K M used as the guiding principle while writing OBM 8e.
