Colls,Bethan Evans,2015-12-22 There is considerable rhetoric and concern about weight and obesity across an increasing  
range of national contexts Alarmist claims about an obesity time bomb are continually recycled in policy reports reviews and  
white papers each of which begin with the assumption that fatness is fundamentally unhealthy and damaging to national  
economies With contributions from the UK Canada the USA and Australia this book offers alternative critical perspectives on  
this alleged public health crisis which were in part developed through an Economic and Social Research Council seminar  
series on Fat Studies and Health at Every Size HAES Written by scholars from a range of disciplines and the health  
professions themes include an interrogation of statistical procedures used to construct the obesity epidemic overweight and  
obesity as cultural signifiers for Type 2 diabetes understandings of healthy eating and healthy weight in a problem population  
gendered expectations on men and women to lose weight the visual representation of obesity tensions when researching anti
