

THE HISTORY OF THE  
EMPIRE

BY JOHN BOWEN, Esq. of the Middle Temple.  
IN THREE VOLUMES.

# Empire A Very Short Introduction

**Lisa Lampert-Weissig**

## **Empire A Very Short Introduction:**

*Empire* Stephen Howe, 2002-08-22 A great deal of the world's history is the history of empires. Indeed it could be said that all history is colonial history if one takes a broad enough definition and goes far enough back. And although the great historic imperial systems, the land-based Russian one as well as the seaborne empires of western European powers, have collapsed during the past half century, their legacies shape almost every aspect of life on a global scale. Meanwhile there is fierce argument and much speculation about what has replaced the old territorial empires in world politics. Do the United States and its allies, transnational companies, financial and media institutions, or more broadly the forces of globalization constitute a new imperial system? Stephen Howe interprets the meaning of the idea of empire through the ages, disentangling the multiple uses and abuses of the labels empire, colonialism, etc. and examines the aftermath of imperialism on the contemporary world. ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**The British Empire: A Very Short Introduction** Ashley Jackson, 2013-05-30 From the eighteenth century until the 1950s the British Empire was the biggest political entity in the world. The territories forming this empire ranged from tiny islands to vast segments of the world's major continental land masses. The British Empire left its mark on the world in a multitude of ways, many of them permanent. In this Very Short Introduction Ashley Jackson introduces and defines the British Empire, reviewing its historiography by answering a series of key questions: What was the British Empire and what were its main constituent parts? What were the phases of imperial expansion and contraction, and the general causes of expansion and contraction? How was the Empire ruled? What were its economic effects? What were the cultural implications of empire in Britain and its colonies? What was life like for people living under imperial rule? What are the legacies of the British Empire, and how should we view its place in world history? ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**The Roman Empire: A Very Short Introduction** Christopher Kelly, 2006-08-24 The Roman Empire was a remarkable achievement. With a population of sixty million people, it encircled the Mediterranean and stretched from northern England to North Africa and Syria. This Very Short Introduction covers the history of the empire at its height, looking at its people, religions, and social structures. It explains how it deployed violence, romanisation, and tactical power to develop an astonishingly uniform culture from Rome to its furthest outreaches.

**Alexander the Great** Hugh Bowden, 2014-07-24 Alexander the Great became king of Macedon in 336 BC when he was only 20 years old and died at the age of 32, twelve years later. During his reign, he conquered the Achaemenid Persian Empire.

the largest empire that had ever existed leading his army from Greece to Pakistan and from the Libyan desert to the steppes of Central Asia His meteoric career as leader of an alliance of Greek cities Pharaoh of Egypt and King of Persia had a profound effect on the world he moved through Even in his lifetime his achievements became legendary and in the centuries that following his story was told and retold throughout Europe and the East Greek became the language of power in the Eastern Mediterranean and much of the Near East as powerful Macedonian dynasts carved up Alexander's empire into kingdoms of their own underlaying the flourishing Hellenistic civilization that emerged after his death But what do we really know about Alexander In this Very Short Introduction Hugh Bowden goes behind the usual historical accounts of Alexander's life and career Instead he focuses on the evidence from Alexander's own time letters from officials in Afghanistan Babylonian diaries records from Egyptian temples to try and understand how Alexander appeared to those who encountered him In doing so he also demonstrates the profound influence the legends of his life have had on our historical understanding and the controversy they continue to generate worldwide ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

**The Culture of "The Culture"** Joseph S. Norman, 2021-01-05 In a career that spanned over thirty years Iain M Banks became one of the best loved and most prolific writers in Britain with his space opera series concerned with the pan galactic utopian civilisation known as the Culture widely regarded as his most significant contribution to science fiction The Culture of The Culture focuses solely on this series providing a comprehensive thematic analysis of Banks's Culture stories from Consider Phlebas to The Hydrogen Sonata It explores the development of Banks's political philosophical and literary thought arguing that the Culture offers both an image of a harmonious civilisation modelled on an alternative socialist form of globalisation and a critique of our neo liberal present As Joseph Norman explains the Culture is the result of an ongoing utopian process attempting through the application of technoscience to move beyond obstacles to progress such as imperialism capitalism the human condition religious dogma patriarchy and crises in artistic representation The Culture of The Culture defines Banks's creation as culture a utopian way of doing of being of seeing an approach an attitude and a lifestyle that has enabled and is evolving alongside utopia rather than an image of a static end state

*The Holy Roman Empire* Joachim Whaley, 2018-06-14 Voltaire's description of the Holy Roman Empire as neither holy nor Roman nor an empire is often cited to underline its worthlessness German historians traditionally despised it because it had allegedly impeded German unification Since 1945 scholars have been more positive but the empire's history and significance is still largely misunderstood In this Very Short Introduction Joachim Whaley outlines the fascinating thousand year history of the Holy Roman Empire Founded in 800 on the basis of Charlemagne's Frankish kingdom its imperial title went to the German monarchy which became established in the ninth and ten centuries They claimed

Charlemagne's legacy including his role as protector of the papacy and guardian of the Church. Around 1500 the title Holy Roman Empire of the German Nation was adopted. An elective monarchy, the empire gradually developed from a feudal monarchy into a legal system that pacified the territories and cities of German-speaking Europe. By 1519 it had a supreme court and a regional enforcement system, ending feuding. Throughout its lifetime, the empire's growth and history were shaped by the major developments in Europe: from the Reformation to the Thirty Years War to the French revolutionary wars, which led to Napoleon destroying the empire in 1806. The sense of a common history over a thousand years and the legal traditions established by the empire have shaped the history of German-speaking Europe ever since. Joachim Whaley analyses the empire's crucial impact and role in the history of European power and politics and shows that there has never been a more durable political system in German history.

**ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**The Guardian Index**, 2003     [The Habsburg Empire](#) Martyn Rady, 2017-03-16

The Habsburgs are the most famous dynasty in continental Europe. From the thirteenth to the twentieth centuries they ruled much of Central Europe and for two centuries were also rulers of Spain. Through the Spanish connection they acquired lands around the Mediterranean and a chunk of the New World, spreading eastwards to include the Philippines. Reaching from South East Asia to what is now Ukraine, the Habsburg Empire was truly global. In this Very Short Introduction, Martin Rady looks at the history of the Habsburgs from their tenth-century origins in Switzerland to the dissolution of the Habsburg Empire in 1918. He introduces the pantheon of Habsburg rulers, which included adventurers, lunatics, and at least one monarch who was so malformed that his true portrait could never be exhibited. He also discusses the lands and kingdoms that made up the Habsburg Empire and the decisive moments that shaped their history. Dynasty, Europe, global power, and the idea of the multi-national state all converge on the history of the Habsburg Empire.

**ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

*The Amazonian "Other"* Aleksandra Wierucka, 2024-08-07

This book explores representations of Amazonian Indigenous peoples in contemporary cultural texts. It analyzes a variety of mediums from novels and films to games and exhibitions, uncovering a distorted image of Indigenous peoples of the Amazon in Euro-American common imagination. The author suggests that these texts rely on a stereotypical vision that was shaped in the first decades of colonization. The chapters consider the formation of the image of Amazonian Indigenous people throughout history and some of the contemporary issues they face, touching on daily life and themes such as shamanism and cannibalism. Together they highlight the misrepresented image of Indigenous groups in the Amazon who

are portrayed as different even strange in relation to Western culture The argument put forward is that both exotic and self exoticization rely on the notion of otherness leading to romanticization patronization and caricature The book will be of particular interest to scholars of Indigenous studies Latin American studies cultural studies anthropology and comparative literature *Newsline* ,2005 Europe and Its Empires Mary N. Harris,Csaba Lévai,2008 **Ancient Assyria** Karen Radner,2015-03-26 Assyria was one of the most influential kingdoms of the Ancient Near East In this Very Short Introduction Karen Radner sketches the history of Assyria from city state to empire from the early 2nd millennium BC to the end of the 7th century BC Since the archaeological rediscovery of Assyria in the mid 19th century its cities have been excavated extensively in Iraq Syria Turkey and Israel with further sites in Iran Lebanon and Jordan providing important information The Assyrian Empire was one of the most geographically vast socially diverse multicultural and multi ethnic states of the early first millennium BC Using archaeological records Radner provides insights into the lives of the inhabitants of the kingdom highlighting the diversity of human experiences in the Assyrian Empire ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Proceedings of the British Academy** ,2009

**Plague in the Early Modern World** Dean Phillip Bell,2019-01-08 Plague in the Early Modern World presents a broad range of primary source materials from Europe the Middle East North Africa China India and North America that explore the nature and impact of plague and disease in the early modern world During the early modern period frequent and recurring outbreaks of plague and other epidemics around the world helped to define local identities and they simultaneously forged and subverted social structures recalibrated demographic patterns dictated political agendas and drew upon and tested religious and scientific worldviews By gathering texts from diverse and often obscure publications and from areas of the globe not commonly studied Plague in the Early Modern World provides new information and a unique platform for exploring early modern world history from local and global perspectives and examining how early modern people understood and responded to plague at times of distress and normalcy Including source materials such as memoirs and autobiographies letters histories and literature as well as demographic statistics legislation medical treatises and popular remedies religious writings material culture and the visual arts the volume will be of great use to students and general readers interested in early modern history and the history of disease **The Claim of Antiquity** Society for the Promotion of Hellenic Studies (London, England),1922 **Journal of Modern European History** ,2007 *Medieval Literature and Postcolonial Studies* Lisa Lampert-Weissig,2010 Medieval Literature and Postcolonial Studies provides a comprehensive introduction to the field of postcolonial medieval studies and examines the historical connections between postcolonial studies and medieval studies

*American Book Publishing Record* ,2006 *Talking Book Topics* ,2017-07 *The Middle Ages* Miri Rubin,2014 The

Middle Ages c 500 1500 includes a thousand years of European history In this Very Short Introduction Miri Rubin tells the story of the times through the people and their lifestyles Including stories of kingship and Christian salvation agriculture and trade Rubin demonstrates the remarkable nature and legacy of the Middle Ages
