

The book cover features a dramatic, low-angle photograph of a sky at twilight or dawn. A bright, glowing light source, likely the sun or moon, is partially obscured by a dark, silhouetted structure on the left, creating a lens flare effect. The sky transitions from a deep blue at the top to a lighter, hazy blue near the horizon. The book's title and author's name are printed in a serif font on a light-colored, textured background that appears to be part of the cover design.

Most pages contain a logical statement or series of logic along with an abstract illustration by Richard B Foster Studying Christian Spirituality David B.

Perrin, 2007-08-07 This book provides a new introduction to the study of Christian spirituality exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology, history, sociology, and anthropology. Systematic and progressive, it introduces the key approaches and shows how they relate to the understanding, study, and practice of spirituality. Covering a vast amount of ground from traditional themes such as images of God, spiritual direction, and pilgrimage to more contemporary issues such as place and space, cyberspace, and postcolonialism, the author takes an ecumenical, inclusive stance, allowing the book to be used in a wide variety of courses and across denominations. *Equal*

*Rights For All. Special Privileges For None. Re-Examining The Anti-Federalist Populist Heritage Of Freedom* Thomas E. Vass, 2014-02-28 About 55% of American citizens abhor the transformation of the society and government into a European socialist state but do not know what to do to restore freedom. A clue for what comes next can be gained by re-examining the history of the Anti-Federalist arguments against the current constitution. **A Liberal Theology for the Twenty-First**

**Century** Michael J. Langford, 2017-03-02 Liberal theology in its typical form represents the attempt to approach religion from a rational perspective without denying or belittling the importance of religious experience and religious commitment. Versions of liberal theology can be found in all the great religions. This book is primarily concerned with a Christian tradition that goes back to the second century and reached a high point in the seventeenth. This tradition includes a method of inquiry which when re-evaluated in the light of recent discussions on the nature of rationality and applied to contemporary issues reveals that there are versions of materialism, monism, and theism that can accord with rationality. While liberal theology cannot demonstrate the truth of theism, it can present it not only as one of the rational options but as an option that has uniquely attractive characteristics and when the liberal tradition is taken at its best, it can support a version of Christianity which continues to refer to God as a transcendent reality and which can continue to support recognizable doctrines of incarnation, redemption, and Trinity. The liberal theology introduced and advanced in this book can be contrasted with many recent radical theologies and could be called liberal orthodoxy. Students of philosophy, theology, and religious studies, as well as clergy and interested lay readers, will find this an accessible insight into liberal theology and to current debates on materialism, atheism, and interfaith dialogue. *Heart of the Living God* Michael G.
