Generative Social Science: Studies in Agent-Based Computational Modeling Joshua M. Epstein, 2006 Agent based computational modeling is changing the face of social science This book argues that this powerful technique permits the social sciences to meet an explanation in which one grows the phenomenon of interest in an artificial society of interacting agents heterogeneous boundedly rational actors

Epistemological Aspects of Computer Simulation in the Social Sciences Flaminio Squazzoni, 2009-04-21 This volume collects the revised versions of the invited and selected papers that were presented at the Second EPOS Epistemological Perspectives on Simulation Workshop held in Brescia Italy in October 2006 EPOS is a bi annual cross disciplinary workshop on simulation originally established by Ulrich Frank and Klaus G Troitzsch with a first edition held in Koblenz in July 2004 EPOS aims to provide a forum for scholars from various disciplines such as the social sciences computer sciences engineering and natural sciences who are interested in discussing epistemological aspects of computer simulation across disciplinary boundaries The common belief behind the workshop is the recognition that the time has come to seriously reflect on epistemological and methodological preconditions processes and consequences of simulation as a research tool During the first edition in Koblenz 2004 a number of interesting topics were fully addressed the link between theory and simulation models the empirical validation of agent based models in the natural and the social sciences the relation between models and truth as well as the role of stylized facts in evidence based models A good cross disciplinary atmosphere permeated the workshop making possible the exchange of knowledge and ideas beyond any disciplinary boundary The first EPOS proceedings were edited by Ulrich Frank and Klaus G Troitzsch and published in the Journal of Artificial Societies and Social Simulation Vol 8 No 4 2005

Proceedings of the 2018 Conference of the Computational Social Science Society of the Americas Ted Carmichael, Zining Yang, 2020-05-27 This book contains a selection of the latest research in the field of Computational Social Science CSS methods uses and results as presented at the 2018 annual conference of the CSSSA This conference was held in Santa Fe New Mexico October 25-28 2018 at the Drury Plaza Hotel CSS investigates social and behavioral dynamics in both nature and society through computer simulation network analysis and the science of complex systems The Computational Social Science Society of the Americas CSSSA is a professional society that aims to advance the field of CSS in all its areas from fundamental principles to real world applications by holding conferences and workshops promoting standards of scientific excellence in research and teaching and publishing novel research findings What follows is a diverse representation of new approaches and research findings using the tools of CSS and Agent Based Modeling ABM in exploring complex phenomena across many different domains Readers will not only have the methods and results of these specific projects on which to build but will also gain a greater appreciation for the broad scope of CSS and have a wealth of case study examples that can serve as meaningful exemplars for new research projects and activities This book we hope will appeal to any researchers and students working in the social
