Doo-Wop Acappella Lawrence Pitilli, 2016-08-02 In Doo Wop Acappella A Story of Street Corners Echoes and Three Part Harmonies scholar and musician Lawrence Pitilli details this too little explored area of

1950 s early 60 s American culture As Kenny Vance and the Planotones suggested in their classic song Looking for an Echo every doo wop acapella group s mission the search for a sound a place to be in harmony a place we almost found was more than the story of street kids seeking recording glory It is the tale of urban change mass migrations ethnic acculturation a changing radio and recording industry and the dynamics of cultural change in the sounds sonic and linguistic that every generation seeks to make and re make for itself In his study of this neglected period Pitilli uncovers a rich musical tradition practiced largely by amateurs in an almost mythologized urban America Although most of these practitioners were musically untrained their lack of formal music education and financial support neither diluted their passion for singing or their quest for possible fame and fortune In this engagingly written and celebratory work Pitilli further demonstrates that doo wop acappella was closely tied to broader issues including the self invented individual gender roles ethnicity race and class

Crime and Criminality Sandie Taylor,2015-12-22 The question of why and how certain individuals are drawn towards behaving in a way that contravenes the Law of the Land is not an easy one to address Researchers from various different fields have nevertheless attempted to develop theoretical explanations for the existence of different types of crime and why some individuals commit such acts Crime and Criminality draws on criminology sociology psychology and neuroscience to offer a balanced perspective of crime the criminal and criminality Coverage includes a comprehensive discussion of theoretical approaches to criminal behaviour including biological social and rational choice approaches an analysis of legal and social definitions of crime and how these definitions influence the way specific behaviours are labelled as criminal an examination of different types of crime and criminals from delinquents to psychopaths and sex offenders an exploration of different ways in which crime is predicted including risk assessment and offender profiling and an overview of investigative techniques Addressing a broad range of topics and offering a synthesis of competing theoretical explanations of criminality this book is essential reading for students taking courses in criminology criminal psychology criminal behaviour forensic psychology and psychological criminology **Genetics. Study Guide and Solutions Manual for Genetic Analysis, an Integrated Approach
Mark F. Sanders, Peter Matthew Mirabito, John L. Bowman, 2012
Written by Peter Mirabito from University of Kentucky the Study Guide Solutions Manual is divided into five sections Genetics Problem Solving Toolkit Types of Genetics Problems Solutions to End of Chapter Problems and Test Yourself
In the toolkit students are reminded of key terms and concepts and key relationships that are needed to solve the types of problems in a chapter
This is followed by a breakdown of the types of problems students will encounter in the end of chapter problems for a particular chapter they learn the key strategies to solve each type variations on a problem type that they may encounter and a worked example modeled after the Genetic Analysis feature of the main textbook
The solutions also reflect the Evaluate Deduce and Solve strategy of the Genetic Analysis feature
As not all end of chapter problems will require all three steps the solution is broken down to reflect only the solution strategies required to find the answer
This approach helps students assess the level of problems and the solution strategies that they struggle with the most
Finally for more practice 10 Test Yourself problems and accompanying solutions are included
