Latin American Politics David Close, 2009-01-01 Highlighting eleven different topics in separate chapters the thematic approach of Latin American Politics offers students the conceptual tools they need to analyze the political systems of all twenty Latin American nations Such a structure makes the book self consciously comparative allowing students to become stronger analysts of comparative politics and better political scientists in general Globalization and Sustainable

Pong, 2014-10-17 Educating the Children of Migrant Workers in Beijing is a timely book that addresses the gap in the provision of basic education to migrant children in China It examines the case of Beijing with a focus on policy implementation at the municipal and district levels and its impacts on migrant schools and their students Rural migrant workers in the cities usually lack local hukou household registration and face serious obstacles in accessing basic social services including schooling for their children The educational situation of these children however can vary both across and within localities and despite policies and regulations from the central government there have emerged broad and sometimes even extreme differences in the implementation of these policies at the local levels This book uses evidence from qualitative interviews and the analysis of policy documents and materials to provide readers with a rare glimpse into the local politics surrounding migrant children s education in China s political center including the nature of and motives behind policy implementation at the municipal and district levels and the implications for the survival and development of migrant schools in the city Educating the Children of Migrant Workers in Beijing is a unique and in depth contribution to an important area and will appeal to scholars and students across a range of disciplines including China studies migration studies education social policy and development studies as well as to practitioners and policymakers working on migrant issues and social welfare provision in China Matatu Kenda Mutongi, 2017-06-26 This prize winning study takes a unique ethnographic

divergent aspects of Kenyan life from rapid urbanization and the transition to democracy to organized crime entrepreneurship social insecurity and popular culture Offering a shining model of interdisciplinary analysis Mutongi mixes historical ethnographic literary linguistic and economic approaches to tell the story of the matatu and explore the entrepreneurial aesthetics of the postcolonial world
