from their arch rivals at Mercedes Benz and to that end they developed a sleek sporty shape and made the car available with a range of 6 cylinder engines These included highly regarded diesel types and later there would be an entry level 4 cylinder as well BMW kept the E34 range fresh to the very end through three major eras of production The first lasted until 1990 and established the range firmly The second period from 1990 to 1992 brought Touring estate models 4 wheel drive variants and advanced new 4 valve engines Between 1992 and 1996 the third phase brought annual updates including VANOS variable valve timing and new V8 engines for the top of the range models In the BMW tradition these cars combined strong performance with excellent handling and these qualities were exploited to the hilt by the M5 variants produced by the legendary M Division Aftermarket tuning specialists made their own contributions too adding to the aura of glamour around the E34 range There were lesser known elements of the story too when BMW used the E34 range for some fascinating experiments with hybrid power systems a convertible and a dual fuel system **BMW Cars 1945 to 2013** Trevor

Alder,2025-07-15 A comprehensive pictorial history of BMW cars covering the post war models right through to 2013 when electric and hybrid models started to make an appearance The detailed text covers all model ranges and includes full specs colour variations and styling details Illustrations include period photographs advertising brochures and original drawings Complementing the historical content are technical specifications ongoing production changes and build figures making this the ideal reference work for model identification and authenticity Appendices cover model designations motorsport achievements and TV movie appearances This title is a bookshelf must for anyone interested in BMW motoring heritage
