## **Early North America In Global Perspective Rewriting Histories:**

**Early North America in Global Perspective** Philip D. Morgan, Molly A. Warsh, 2014 Early North American history is a field in flux In the last thirty years the field of Atlantic History has transformed scholarly studies of colonial America bringing to light the many connections linking the Americas to Africa and Europe Recently though historians have begun to question the utility of the Atlantic framework Some suggest that it overlooks global phenomena while others argue for a hemispheric or continental perspective on North America s early history Early North America in Global Perspective collects the most interesting and innovative scholarly approaches to these questions Anchored by a robust introduction that guides the reader through the various conceptual arguments the fourteen essays gathered here introduce students to some of the finest historians of early America working in expansive and stimulating ways These essays capture the complexity of North America s past and are in tune with the global influences that shape its present

**Jewish Entanglements in the Atlantic World** Aviva Ben-Ur, Wim Klooster, 2024-01-15 Jewish Entanglements in the Atlantic World represents the first collective attempt to reframe the study of colonial and early American Jewry within the context of Atlantic History From roughly 1500 to 1830 the Atlantic World was a tightly intertwined swathe of global powers that included Europe Africa North and South America and the Caribbean How when and where do Jews figure in this important chapter of history This book explores these questions and many others The essays of this volume foreground the connectivity between Jews and other population groups in the realms of empire trade and slavery taking readers from the shores of Caribbean islands to various outposts of the Dutch English Spanish and Portuguese empires Jewish Entanglements in the Atlantic World revolutionizes the study of Jews in early American history forging connections and breaking down artificial academic divisions so as to start writing the history of an Atlantic world influenced strongly by the culture economy politics religion society and sexual relations of Jewish people

**Tensions of Social History** Alessandro Stanziani, 2022-12-15 This book seeks to overcome the tension between western and non western categories and tools in the study of global history showing how most western approaches to the social sciences and history have developed through transnational and colonial interactions Offering a transnational and global history of the main tools we have to understand the word and its transformations over the last three centuries Tensions of Social History explores the construction of archives and historical memory the making of statistics and their use in politics the identification of social actors and the emergence of key social theories Providing key insights into how to write history and develop social sciences in the global era while avoiding eurocentrism and cultural exceptionalism this ambitious book shows how global history is made of encounters rather than confrontations between civilizations

**An ^AUnpredictable Gospel** Jay Riley Case, 2012-01-02 The astonishing growth of Christianity in the global south over the course of the twentieth century has sparked an equally rapid growth in studies of World Christianity which have dismantled the notion that Christianity is a Western religion In Missionary Passages Jay Case examines the efforts of American evangelical missionaries

in light of this new scholarship He argues that if they were agents of imperialism they were poor ones Western missionaries had a dismal record of converting non Westerners to Christianity *Austrian Studies Newsletter* ,1996 **American Studies International Newsletter** ,1995 **Z. Angl. Am** ,1993 The Old South J. William Harris,2008 This is the second edition of the successful Society and Culture in the Slave South volume of the Rewriting Histories series Combining established work with that of recent provocative scholarship on the antebellum South this collection of essays puts students in touch with some of the central debates in this dynamic area Current Contents.
