Early Gifts Recognizing And Nurturing Childrens Talents:

Early Gifts Paula Olszewski-Kubilius, Lisa Limburg-Weber, Steven Pfeiffer, 2003 Most parents suspect at one time or another that their child is showing signs of above average ability in some area But determining what to do next can be difficult This practical resource offers solid advice and guidance for parents of gifted children including suggestions for both school and home environments Educational Resource Handbook of Giftedness in Children Steven I. Pfeiffer, 2008-02-20 Mention special needs children and most people think of students struggling to overcome learning and physical disabilities as well as problem behaviors that interfere with achieving full academic potential But there is a hidden population of special needs children the gifted and talented and their teachers parents and other professionals are often not well equipped to respond to their unique academic and developmental needs In one comprehensive resource the Handbook of Giftedness in Children brings together leading experts from the fields of psychology and education combining theory and applied empirical research on such crucial topics as conceptualization types of intelligence developmental considerations and ethical and legal concerns Particular attention is given to social and family contexts and evidence based strategies and interventions offer solid guidelines on assessment curriculum design and encouraging and nurturing talent from preschool through adolescence Sample topics include Approaches to screening and assessment including IQ and other tests The gifted child s social world from peer relationships to gender issues Special issues of gifted but disadvantaged students Problems and interventions specific to families with a gifted child Career counseling planning and mentorship This volume is an essential resource for anyone working with gifted and talented children including clinical child and school psychologists educators and other allied professionals as well as child psychiatrists family therapists social workers and pediatricians and other healthcare professionals It also serves as an invaluable guide for graduate students in these and related fields *Evidence-Based Interventions for Students with Learning and Behavioral Challenges* Richard J. Morris, Nancy Mather, 2008-01-14 This book assembles into one volume summaries of school based intervention research that relates to those who deal on a regular basis with the growing body of students having high incidence learning disabilities and or behavior disorders special educators school psychologists and clinical child psychologists Chapter authors begin with an overview of their topic followed by a brief section on historical perspectives before moving on to the main section a critical discussion of empirically based intervention procedures In those instances where evidence based prescriptions can legitimately be made authors discuss best practices and the conditions e g classroom environment teacher expertise under which these practices are most effective A final section deals with policy issues **Using the Next Generation Science Standards With Gifted and Advanced Learners** Cheryll M. Adams, Alicia Cotabish, Mary Ricci, 2021-10-03 Using the Next Generation Science Standards With Gifted and Advanced Learners provides teachers and administrators examples and strategies to implement the Next Generation Science Standards NGSS with gifted and advanced learners at all stages of development in K 12 schools The book describes

and demonstrates with specific examples from the NGSS what effective differentiated activities in science look like for high ability learners It shares how educators can provide rigor within the new standards to allow students to demonstrate higher level thinking reasoning problem solving passion and inventiveness in science By doing so students will develop the skills habits of mind and attitudes toward learning needed to reach high levels of competency and creative production in science fields

Differentiating Instruction for Gifted Learners Christine L. Weber, Wendy A. Behrens, Cecelia Boswell, 2021-09-03 Differentiating Instruction for Gifted Learners allows educators and stakeholders to examine issues related to differentiating curriculum and instruction in a variety of contexts The case studies in this rich resource analyze various differentiation strategies and their benefits to promote classrooms where every student belongs every student is valued and every student is nurtured The cases facilitate conversations about children and their unique needs by situating learning in authentic and meaningful contexts with the goal of helping educators improve services and programs for gifted and talented students Things to Consider guide the reader's thinking without imparting an explicit action recommendation or solution Discussion questions activities extensions and suggestions for additional readings support the standards of excellence set forth in the revised NAGC CEC Teacher Preparation Standards in Gifted and Talented Education and the NAGC CEC Advanced Standards in Gifted Education Teacher Preparation
