Frankish kings to the so called feudal age between c AD 600 and 1150 During these centuries radical changes occurred in
the organisation of the rural world Towns and complex communities of artisans and merchant traders emerged and networks

consequences into the present day Loveluck provides the most comprehensive comparative analysis of the rural and urban
archaeological remains in this area for twenty five years Supported by evidence from architecture relics manuscript
illuminations and texts this book explains how the power and intentions of elites were confronted by the aspirations and
actions of the diverse rural peasantry artisans and merchants producing both intended and unforeseen social changes
