Chokepoint Capitalism Cory Doctorow, Rebecca Giblin, 2022-09-27 A call to action for the creative class and labor movement to rally against the power of Big Tech and Big Media Corporate concentration has breached the stratosphere as have corporate profits An ever expanding constellation of industries are now monopolies where sellers have excessive power over buyers or monopsonies where buyers hold the whip hand over sellers or both In *Chokepoint Capitalism* scholar Rebecca Giblin and writer and activist Cory Doctorow argue we're in a new era of chokepoint capitalism with exploitative businesses creating insurmountable barriers to competition that enable them to capture value that should rightfully go to others All workers are weakened by this but the problem is especially well illustrated by the plight of creative workers From Amazon's use of digital rights management and bundling to radically change the economics of book publishing to Google and Facebook's siphoning away of ad revenues from news media and the Big Three record labels use of inordinately long contracts to up their own margins at the cost of artists chokepoints are everywhere By analyzing book publishing and news live music and music streaming screenwriting radio and more Giblin and Doctorow deftly show how

powerful corporations construct anti competitive flywheels designed to lock in users and suppliers make their markets hostile to new entrants and then force workers and suppliers to accept unfairly low prices In the book s second half Giblin and Doctorow then explain how to batter through those chokepoints with tools ranging from transparency rights to collective action and ownership radical interoperability contract terminations job guarantees and minimum wages for creative work Chokepoint Capitalism is a call to workers of all sectors to unite to help smash these chokepoints and take back the power and profit that s being heisted away before it s too late Cultural Evolution in the Digital Age Alberto Acerbi,2020 From emails to social media from instant messaging to political memes the way we produce and transmit culture is radically changing Cultural Evolution in the Digital Age examines for the first time in a cognitive and evolutionary perspective the impact of online and digital media on how we produce and transmit culture **Billboard** ,2010-07-03 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Made in Puerto Rico Hugo R. SPOTIFY: HOW THE COMPANY USES DATA TO INFLUENCE MUSIC TASTES AROUND THE WORLD MAX

EDITORIAL, 2025-04-15 Introduction to the World of Data and Spotify The digital revolution has transformed the way we consume music and Spotify is one of the biggest drivers of this transformation The streaming app launched in 2008 has grown exponentially not just as a music service but as a platform that analyzes collects and uses data on its users behavior to personalize the music experience for billions of people around the world The key to Spotify s success is not only its vast library of music but its ability to use data to influence shape and even predict users musical tastes The Era of Music Streaming Before Spotify the music industry was dominated by CD purchases individual downloads and of course radio While radio has been a dominant platform for introducing new music for decades it has its limitations Spotify with its data driven model has revolutionized this dynamic by offering nearly unlimited access to music while also personalizing track suggestions based on users listening behavior The Power of Data Spotify s biggest advantage over other music platforms is its ability to capture data Every time a user listens to a song skips a track or saves a song to a playlist Spotify collects this information and uses it to improve its music recommendations Spotify s recommendation algorithm is powered by a wealth of data about users preferences creating a personalized experience for each user How Data Shapes Music Preferences Data collection goes beyond just choosing songs Spotify monitors listening time playlist engagement repeat tracks and even the times when a user is most likely to listen to a certain style of music This data is then processed to create a detailed profile of each user helping the platform predict which songs are most likely to appeal to them Practical example Imagine that you are a fan of pop music and frequently listen to the most popular tracks on the charts Spotify by noticing this pattern can recommend similar songs that are starting to gain popularity or even songs by emerging artists in the same style influencing your musical tastes before you have even heard of them
