Conference on Current Issues in Education (ICCIE) 2023 Paramita Cahyaningrum Kuswandi, Ezi Apino, Syahri Ramadhan, Ririn Susetyaningsih, Siwi Widiastuti, 2024-05-18 This is an open access book. In this Industrial Era 4.0 society encounters significant environmental, economic and social challenges. Thus educational institutions need to ensure that all students are well prepared for the future and that they can act as agents of change. As a result, educational institutions must expand their educational system extensively to address these challenges, including reshaping teaching and learning notions and platforms that immensely focus on not only developing a broad set of academic staff and students' knowledge, skills, attitudes and values but also upholding the fast-growing technology. Building strong learning connections should be perceived as the highest priority in educational institutions. The connection paves the way for critical thinking and it is a fundamental concept that connects both context and relevance. In this digital information age, technology has enormous potential to assist this whole process of connection. The 5th International Conference of Current Issues in Education (ICCIE) 2023 provides platforms for researchers and practitioners to share their ideas and experiences concerning these issues. The conference also brings an excellent opportunity to connect with global participants and enhance further collaborations.
