Brando Hollywood producers who showed interest and a fascinating essay by the young student at Columbia University's Graduate School of Journalism who broke the Spielberg story make this book a rare and compelling read on science fiction cinema and the art of adaptation

The Great Science Fiction Pictures II James Robert Parish, Michael R. Pitts, 1990

This belated sequel is even more important than the same author's first volume LJ 9 15 77 which predated Star Wars ET Close Encounters and the films they inspired This book also fills in that volume's omissions Information on some 400 films and updated TV and radio listings yields credits detailed cast lists synopses quotes from contemporary reviews and genre encyclopedias brief critical evaluations and entertaining film buff y tidbits There are a few nitpicky errors and the quality of the entries unavoidably varies somewhat but generally the level of scholarship is high as it usually is for all the products emanating from the veteran Parish Pitts reference book factory in part because they are and utilize other crackerjack researchers Highly recommended David Bartholomew NYPL Library Journal
