## **Ebonics New Perspectives On Language And Education:**

**Ebonics** David J Ramirez, Terrence Wiley, Gerda de Klerk, Enid Lee, Wayne E. Wright, 2005-03-22 Controversy erupted in 1996 when the Oakland Unified School District's Ebonics Resolution proposed an approach to teaching Standard English that recognized the variety of English spoken by African American students. With new demands for accountability driven by the No Child Left Behind policy and its emphasis on high stakes testing in Standard English, this debate will no doubt rise again. This book seeks to better inform this next episode. In Part 1, leading scholars place the debate within its historical and contemporary context, provide clear explanations of what Ebonics is and is not, and offer practical approaches schools can and should follow to address the linguistic needs of African American students. Part 2 provides original documents that accompanied the debate, including the original resolutions, legislation, organization position papers, and commentary analyses from leading linguists. This book is written for all those whose work impacts the lives of Ebonics speakers in our public schools. **Ebonics: The Urban Education Debate (New Perspectives on Language and Education)** Gerda De Klerk, ,

**Language Teacher Identities** Matthew Clarke, 2008-06-06 Set in the rapidly changing world of the contemporary United Arab Emirates and bringing together detailed linguistic analysis with cutting edge social theory, this book explores the development of the first cohort of students to complete a new Bachelor of Education in English language teaching, theorizing the students' learning to teach in terms of the discursive construction of a teaching identity within an evolving community of practice. Both a study of the influence of issues such as gender and nationalism in language teacher education in the Middle East, as well as of the power of discourse and community in shaping identity, this book will be of relevance to anyone working in teacher education as well as to those with an interest in theorizations of discourse and identity. ***Social Actions for Classroom Language Learning*** John Hellermann, 2008-01-01 Based on socio-cultural approaches to research on language learning and classroom video recordings, this book documents language learning as an epiphenomenon of peer face-to-face interaction. This book provides web links so the reader can see the data from the classroom that is the subject of the analyses.

**Heavenly Readings** Andrey Rosowsky, 2008-08-04 This ethnographic study investigates for the first time in any significant depth the literacy practices associated with the religion of Islam as they are shaped, lived, and experienced within a typical multilingual Muslim community in the United Kingdom. It seeks to counterbalance prevailing views on such practices which have often been misinformed, misrepresented, and misunderstood. Making liberal recourse to the words, views, and lives of its participants, this book describes, explores, and celebrates liturgical literacy as a major contributor to group and individual cultural, linguistic, and religious identities. In a political and social climate often inimical to religious practices in general and to Islamic ones in particular, this book highlights the centrality and significance of such literacy practices to minority ethno-religious communities in their daily lives. **Language, Culture, and Community in Teacher Education** Maria Estela Brisk, 2013-09-13 Published by Routledge for the American Association of Colleges for Teacher Education. This volume
