been my preliminary attack what you might call open warfare with scouting operations But when they bring on the transverse section of watermelon I shall take these two trenching tools which I now hold in my hands and just naturally start digging in I trust you may be hanging round then you ll certainly overhear something Kindly pass the ice water That s it Thank you Join me won t you in a brimming beaker It may interest you to know that I am now on my second carafe of this wholesome delicious and satisfying beverage Where I have lately been in certain parts of the adjacent continent there isn t any ice and nobody by any chance ever drinks water Nobody bathes in it either so far as I have been able to note You ll doubtless be interested in hearing what they do do with it over on that side It took me months to find out Then finally one night in a remote interior village I went to an entertainment in a Y M C A hut A local magician came out on the platform and after he had done some tricks with cards and handkerchiefs which were so old that they were new all over again he reached up under the tails of his dress coat and hauled out a big glass globe that was slopping full of its crystal pure fluid contents with a family of goldfish swimming round and round in it as happy as you please
